School Pride . . . A term nearly forgotten at Lincolnview High School. The student body had lost almost all pride in our school. LHS had been put down for so long, the kids finally started believing that the school was "crud".

But the fall of '81 brought about many changes. Not only was a new class entering LHS, but also 2 new teachers along with a new principal.

School seemed like a new place under new management. It wasn't the normal "drag". The students started to regain some school pride.

The spirit squad banded together and came up with a successful spirit week.

The improvement in the sports programs gave LHS a boost, but pride also started building in our academics.

We still have a long way to go before school pride reaches its peak, but 1982 will definitely be remembered as the turning point in a downward progression.

The LANCER staff tried to capture the spirit of the students during the 81-82 year; it is because of them that at LHS, OUR PRIDE IS GROWING!

OUR PRIDE IS

WALKIE TALKIE
All Day Long

At the end of the day the Junior High students seem eager to get out of school.

School starts at 8:30 and ends at 3:08. In between this time the students spend time in their classes, lunchroom, and in the hallways. All together they roam the hallways during school for 1 hour and 18 min. (not counting before or after school).

Before and after school they again roam the halls for a total of 1 hour. During this time they talk with friends or just run around. Their plans for the weekend are a very important subject, too.

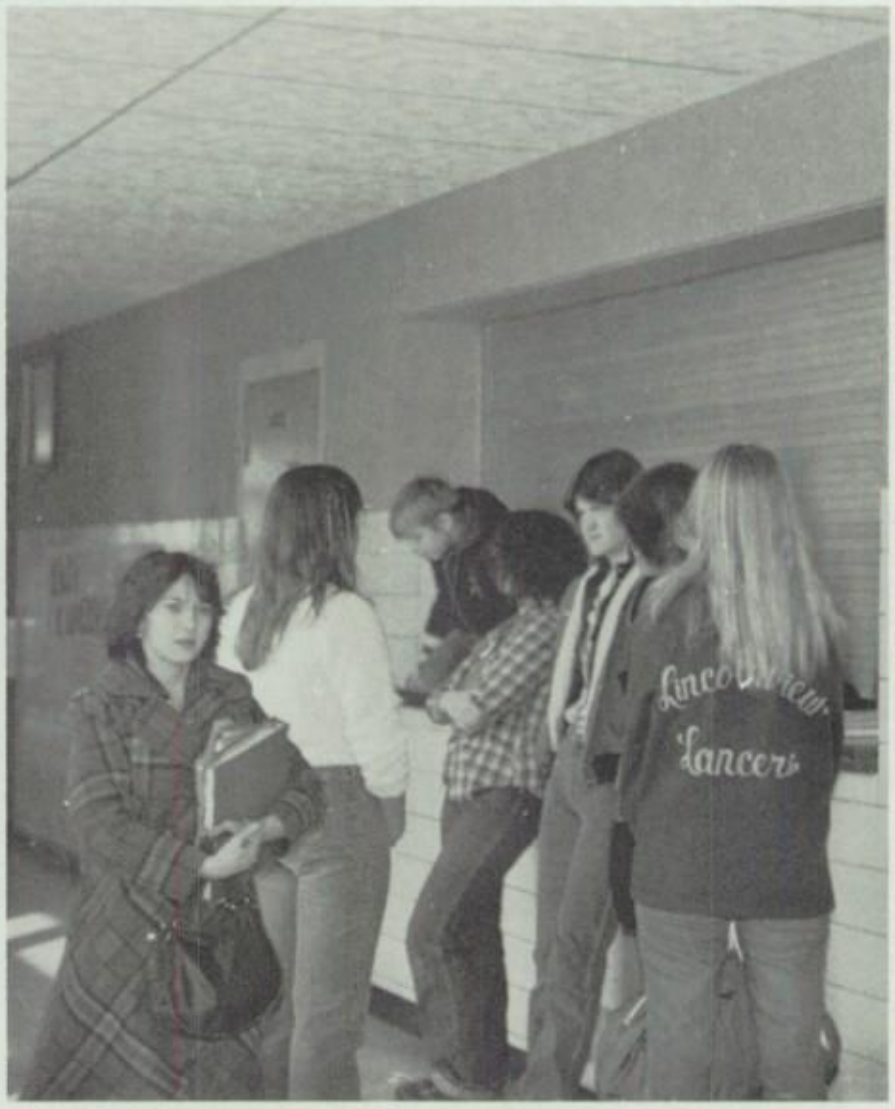
Some of the fun things the students do during school is stack lockers, listen to radios, hold hands or smooch with that special someone.

So if one day you are down and out and nothing to do, just walk the halls, or sit in the cafeteria and I am sure you'll find something to Walkie Talkie about all day long.

Couples. Romance. Spring Fever? (Robbie Thompson and Michele Neate have it all!)

Cindy Fisher, Kris Trisel and Ronnie Duncan are really getting into what's on that piece of paper. (I wonder what it says . . .)

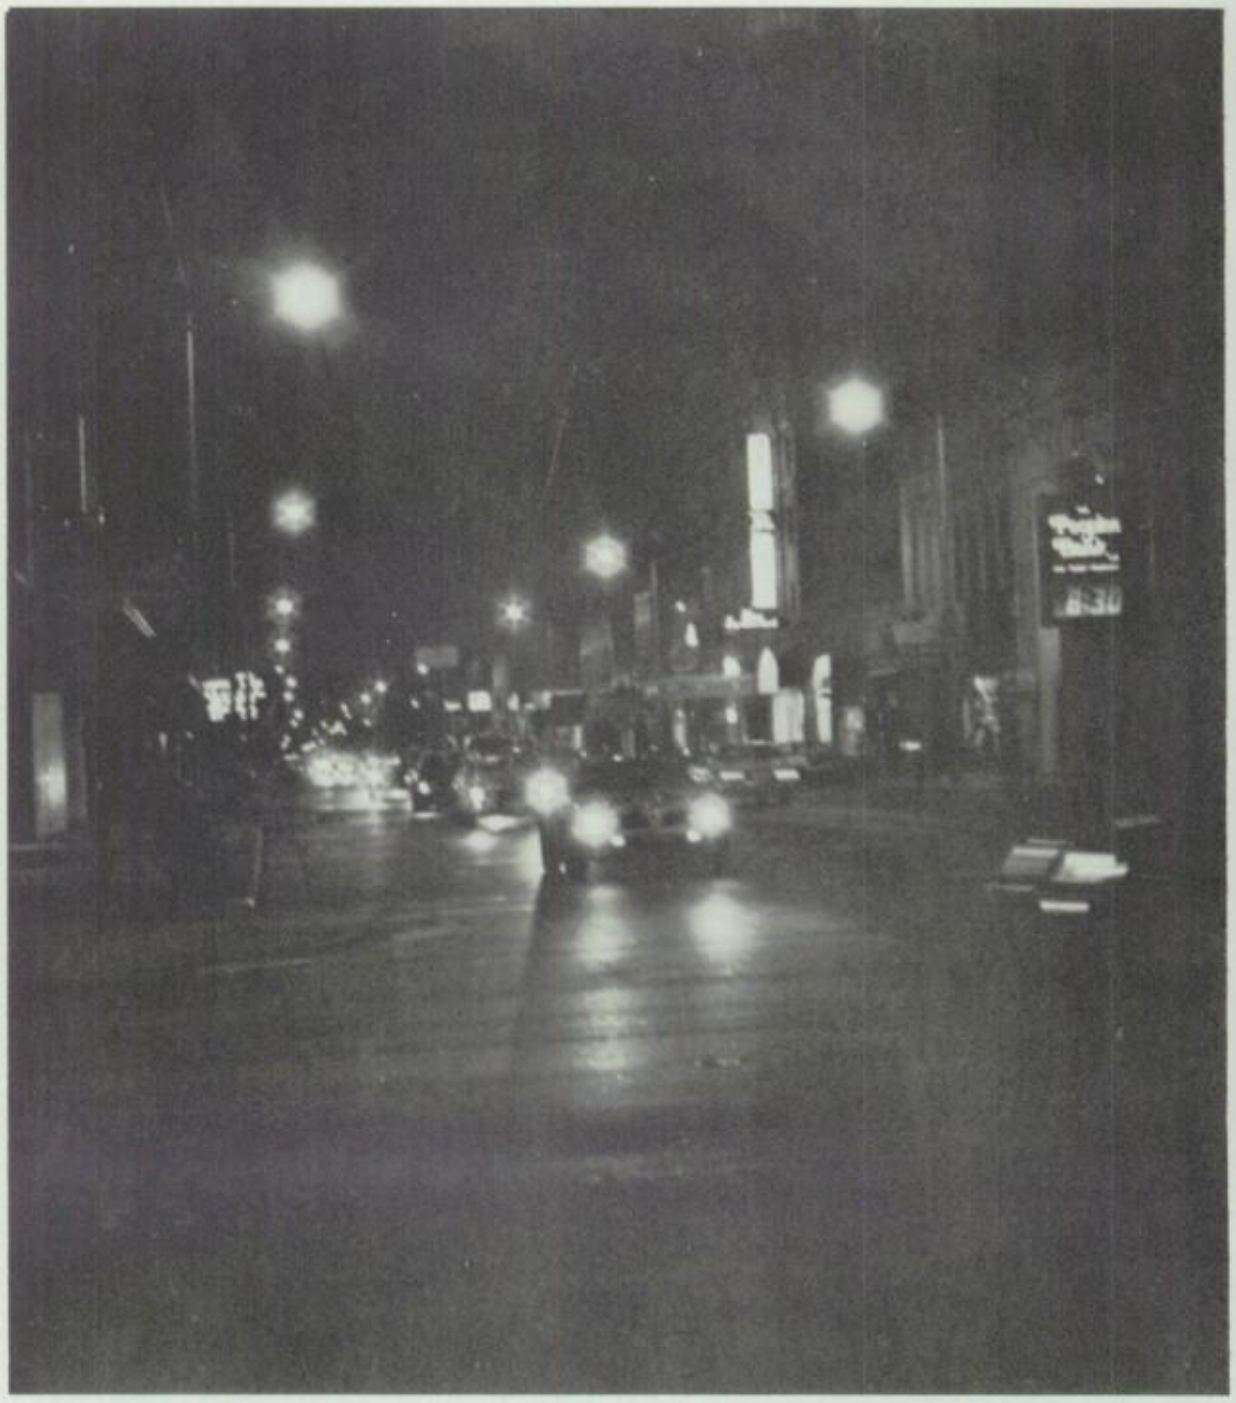
Tim Burnett and Brenda York are waiting on the late bus to take them home.



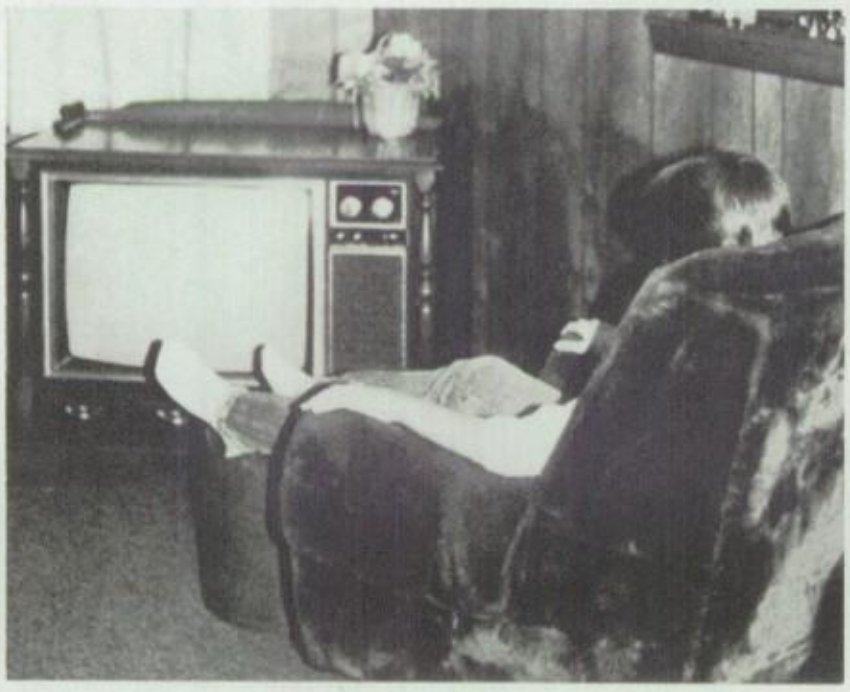
The concession stand always brings a lot of business in the morning! (Maybe it's just the heater).

WEEKENDS WERE MADE FOR . . .

Everyone is always anxious for the weekends, but what is it that everyone is waiting for? We asked the students at Lincolnview what they spend most of their time doing on the weekends and this page shows some of the number one past times. Most Lincolnview students can be seen on the streets of Van Wert or Delphos racking up the miles and burning up the gas. Some unknown students suggested that parking is a way to pass time, but only when it is warm, of course. If you want to test your intelligence level there are a lot of games to be played in Arcade City, or you can catch up on the latest gossip. So — if even J.R. turns you down for a date on Friday nite, don't despair, there are things to do everywhere!

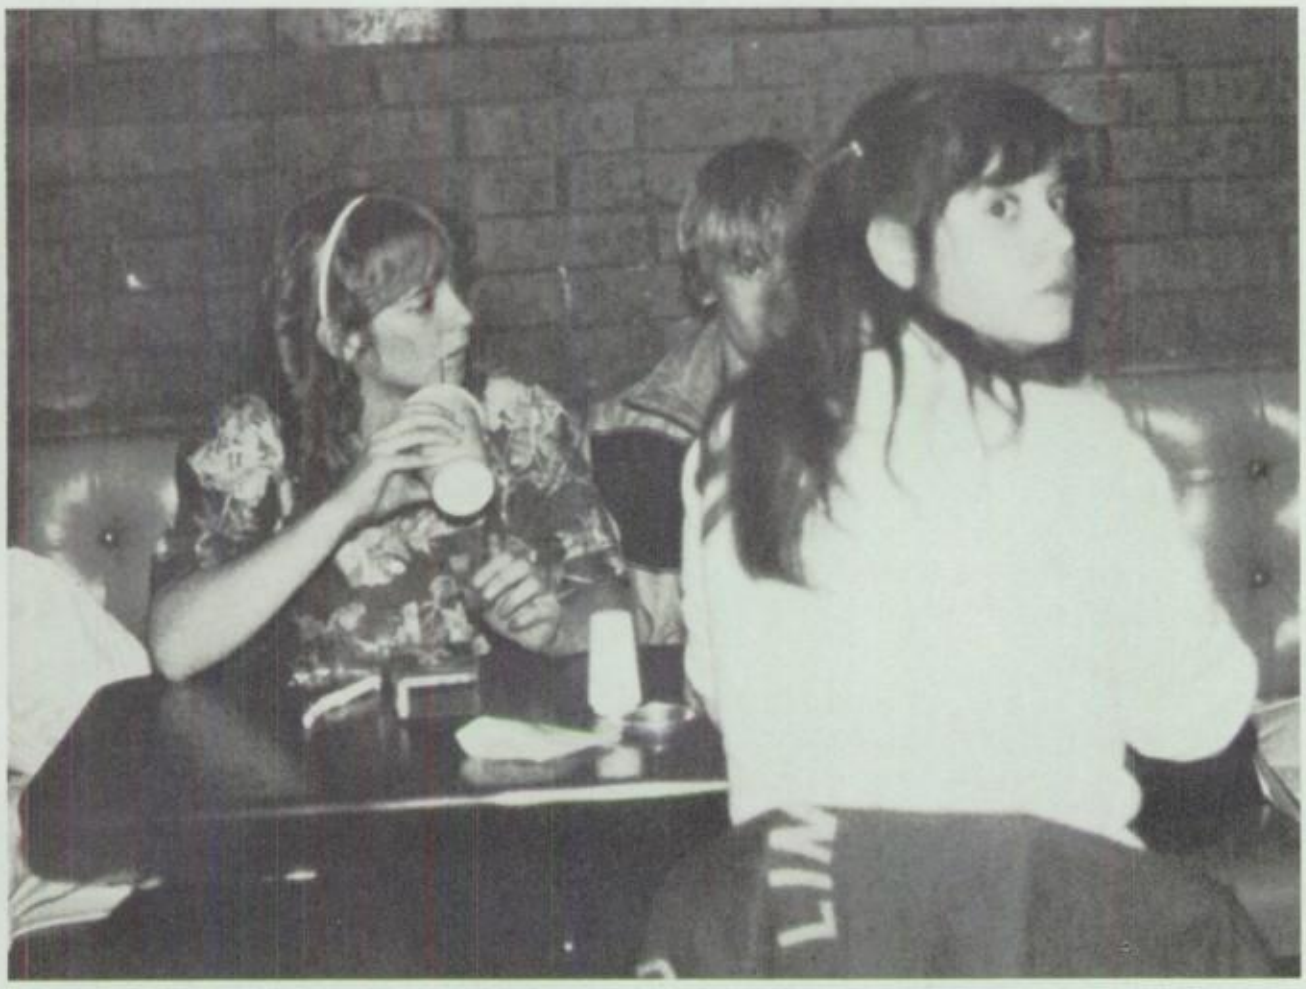


This is a common weekend event, burning up the gas on the streets of Van Wert.

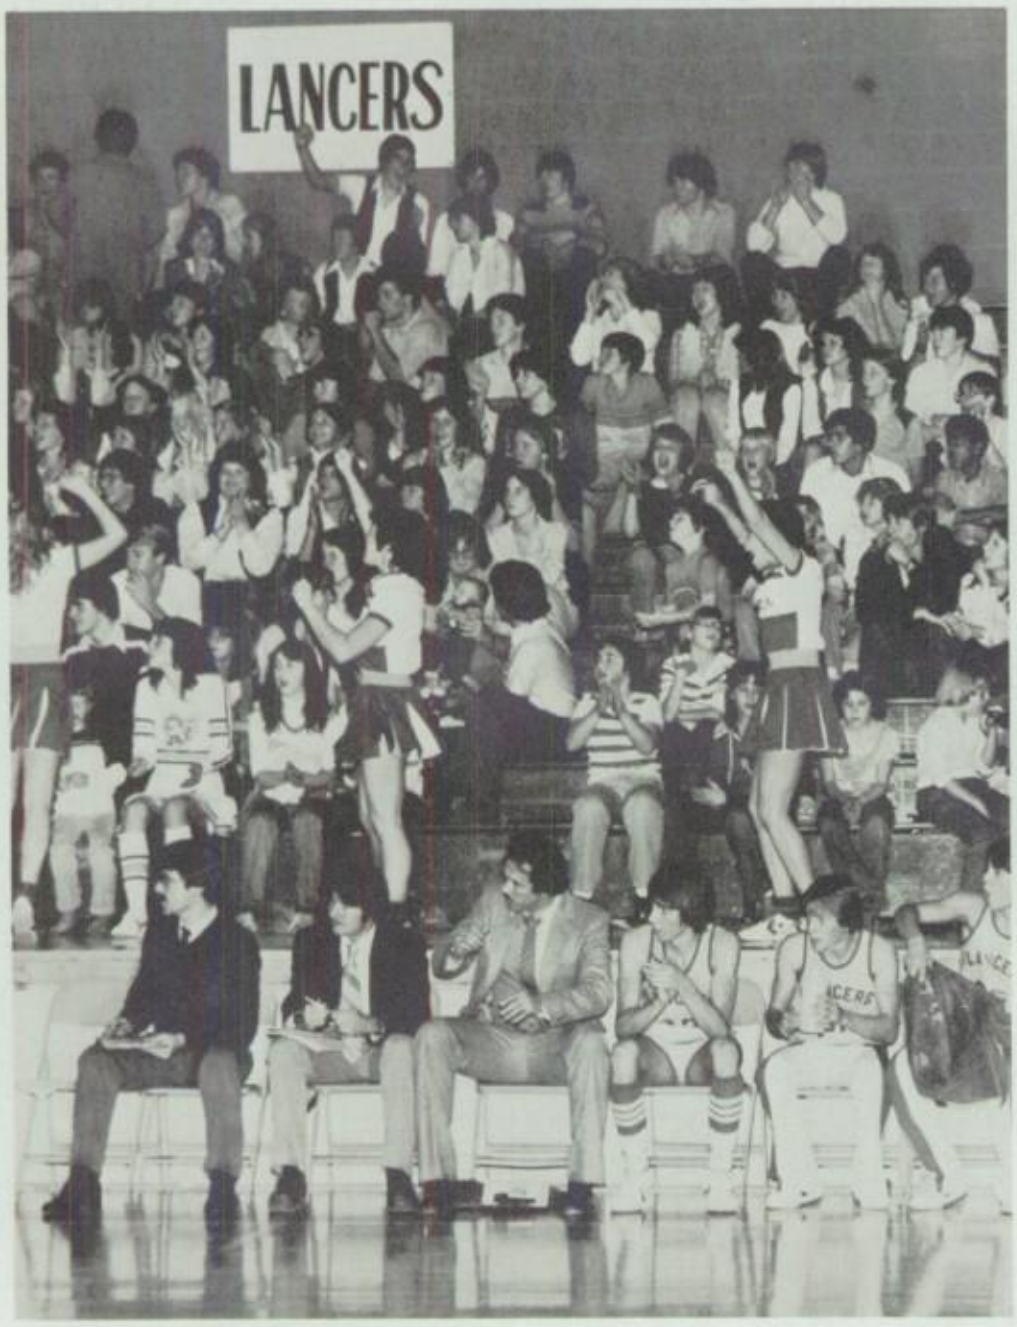


Does this remind you of any of your weekends???????

One of the many fast food establishments that Lincolnview students can be found at on a Friday or Saturday Night.



This sure beats the cafeteria food at school!



Les Bowen, Sr., is again seen wasting his money in Arcade City.

Cheering your team on to victory is one of the best ways to spend a weekend nite.

Students Work: Some High School students get part time jobs to supplement their income so they have spending money. Most of these jobs are at fast food businesses or retail stores.

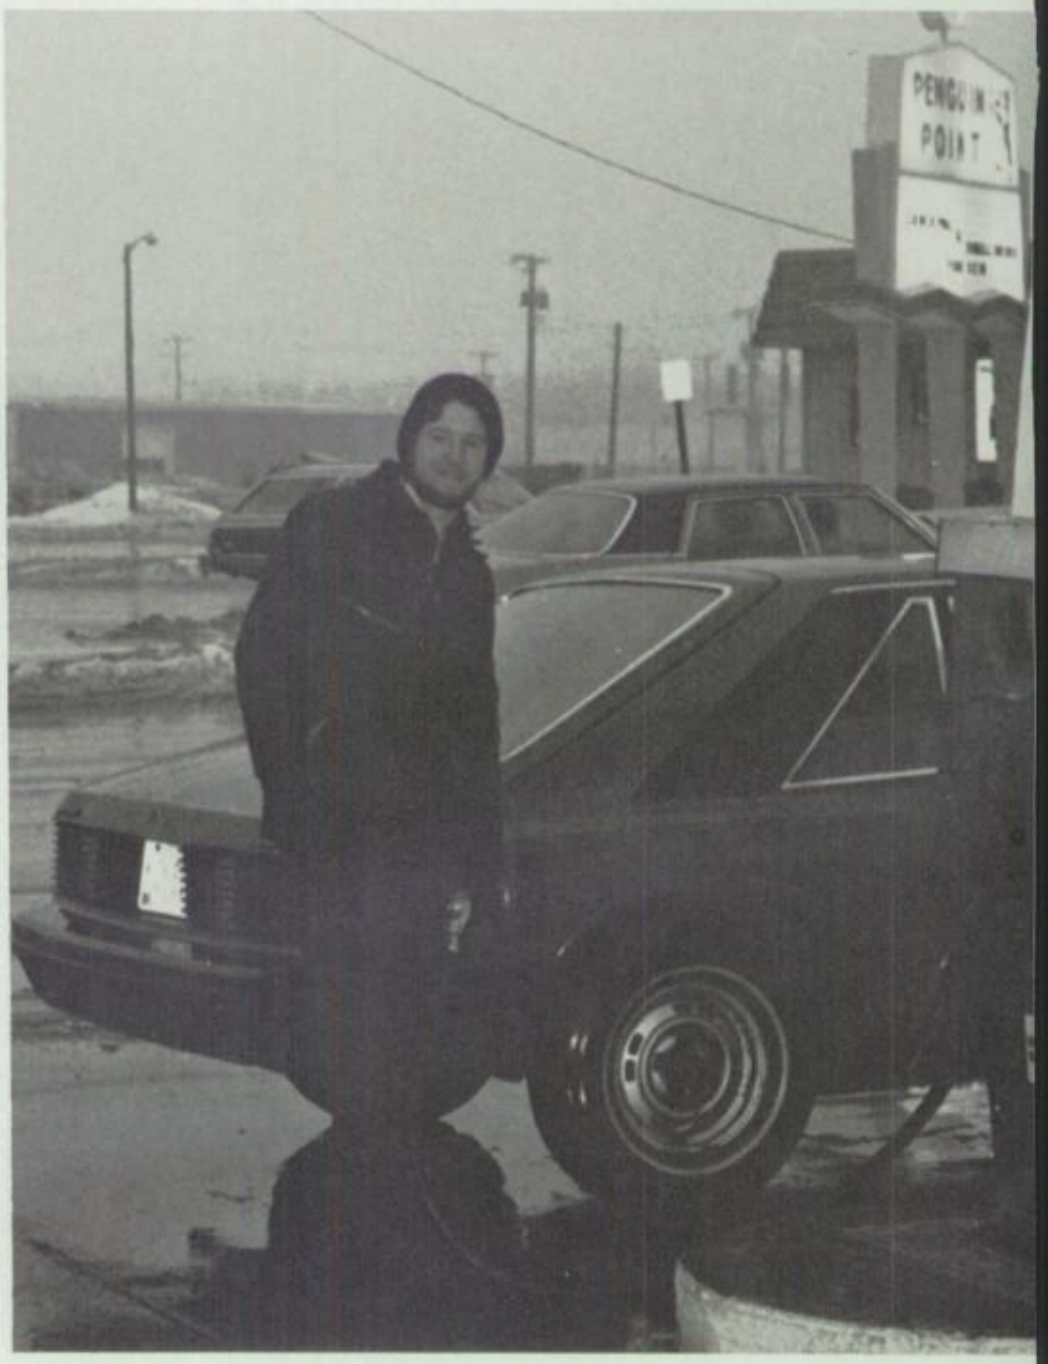
When asked why they work, the main reply was for money. This money would go for spending or for the future. Another reply was to have something to do.

Some of them were asked why they chose this type of employment. Elaine Blankemeyer said, "I like to make different kinds of ice cream and pizzas." Rich Jellison stated, "They were hiring people at the time." "I work there because my sister worked there and I know most of the people," says Judy Elston.

Working hassles when it comes to scheduling hours might be put like this: "When you want time off they schedule you to work; When you don't want off they schedule you NOT to work," or "It's a waste to come into work for 2-3 hours, it doesn't even hardly pay for the gas."

So is it worth working while still in school? To these people yes, but to others, maybe not.

As one of the many Vantage students Julie Stokes works at Fisher's Big Wheel in the Summit Shopping Center

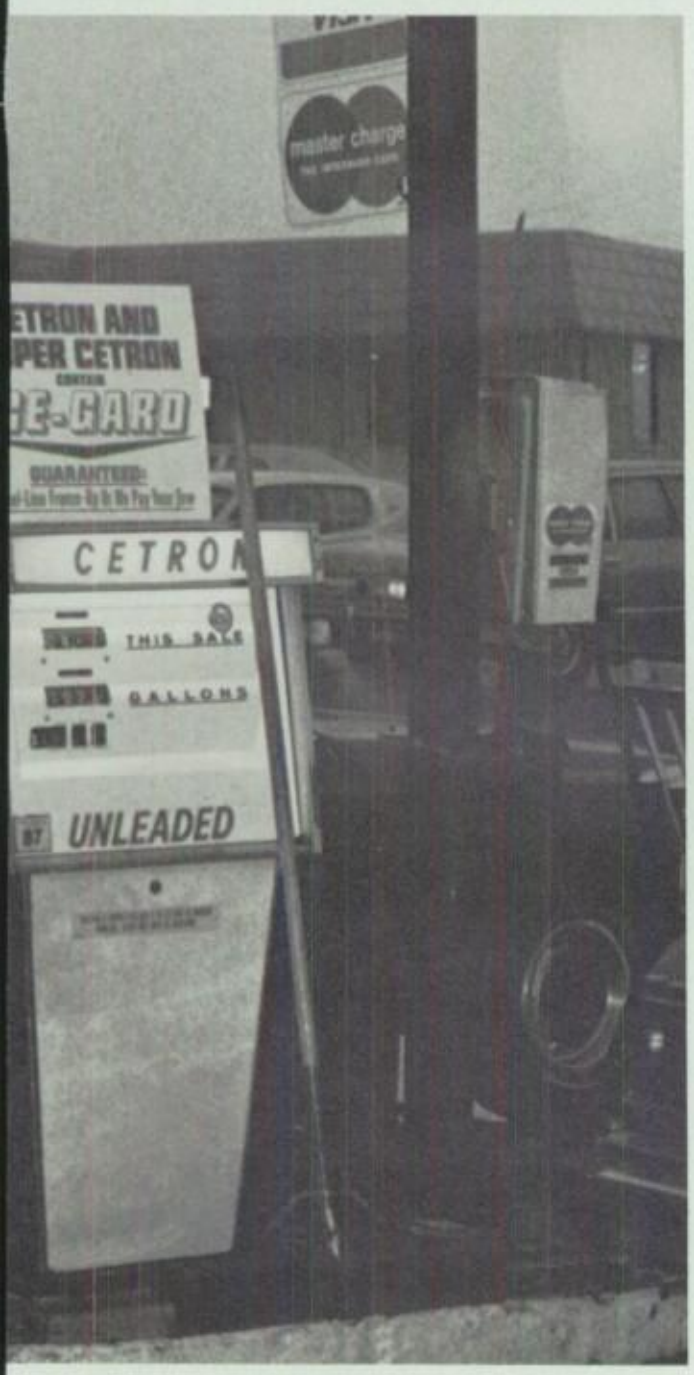


Following in his father's steps, Kelly Hire works in all types of weather at Don's Sohio.

Being friendly and helping customers are part of the Fisher's Big Wheel's employee's job, as Kris Davis shows.

Working at one of the better known fast food places, Rich Jellison is shown moping the floor of McDonalds.

Elaine Blankemeyer works at one of the new businesses in town — Handy Andy's.



Judy Elston, an employee of Wendy's, serves frosty's to the public.

Besides being a science teacher at Lincolnview, Mr. Moser is now an associate staff member of Campus Life, working with the Lincolnview Club. During a meeting he seems to be discussing something private with Raquel Canales.

Bruce Zinn proves that Campus Life isn't just a time of games and being with friends. During club meetings many subjects are discussed about problems teenagers face.

The contemporary gospel group "Found Free" presented a concert for schools in Van Wert and Mercer counties on Jan. 20.

"Found Free" tried to get the message across in this song that we are God's army and we should share this news with our friends and family.

7:23 p.m. . . . Teenage Rap Session.

Miss Tish McGee is Lincolnview's Campus Life Director. Tish was a 1979 graduate at Lincolnview and her pride in this school makes her try her hardest to build up Campus Life at Lincolnview.

Youth for Christ is a national organization devoted to helping teenagers with their problems through the use of God's word. There are two subdivisions of Youth for Christ. Youth Guidance is directed by Dave White and deals with boys and girls who are sent by the courts or schools because of family or delinquency problems. One of the ways of teaching them to cope with their problems is through wilderness trips where the kids live in nature and experience danger and trials they have to deal with by themselves. Campus Life is the part of Youth for Christ that involves high school students in fun times and in serious discussion. This year Campus Life sponsored a dating game where four students from each school were selected. From Lincolnview Lisa Gilgenbach, Kim Mason, Bob Evans, and Brent Neate were chosen. But besides the fun times the students here view points from their peers on subjects such as drugs, dating, parents, marriage, and different topics dealing with religion. There is a lot of individual growth accomplished through students who attend Campus Life meetings.

"Found Free" tours all over America and is also sponsoring a Carribean Cruise this summer to the Bahamas to sing in mission camps there.

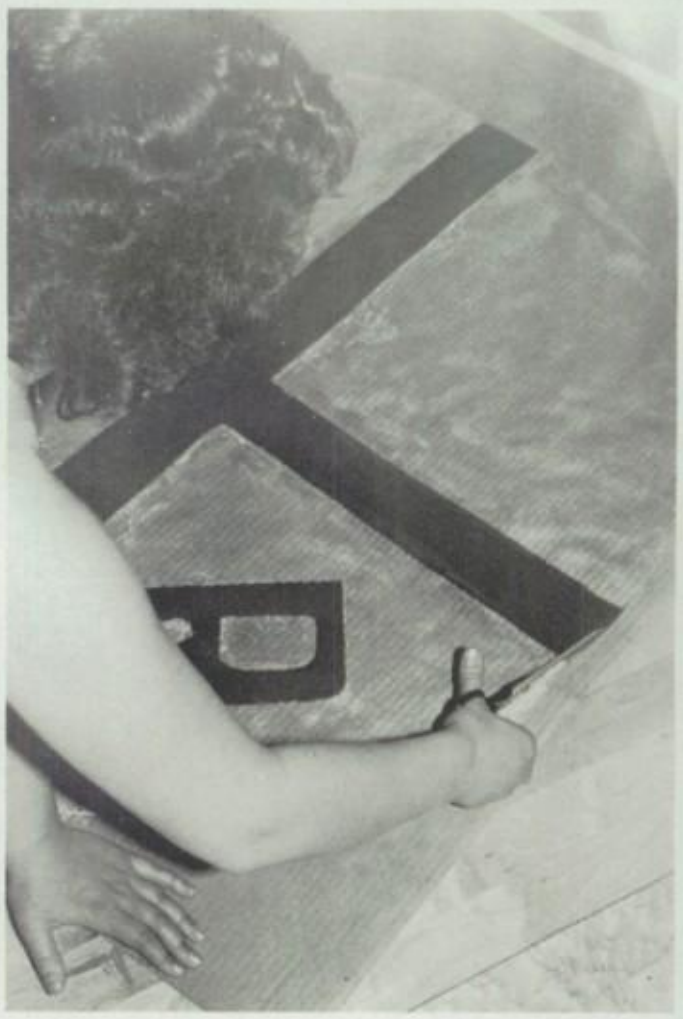
RAILROAD CREW PREPARES FOR TRIP

On May 2, the junior class started what seemed to be an endless journey. The gym was closed on this date so the juniors could start decorating for prom. Many long hours, hard work and what seemed to be problems without solutions were faced through out this week.

Stephanie Girod and Shelia Foster put up the crepe paper for the false ceiling.



Laura Burden cuts out the railroad crossing signs which were used to compliment the theme.

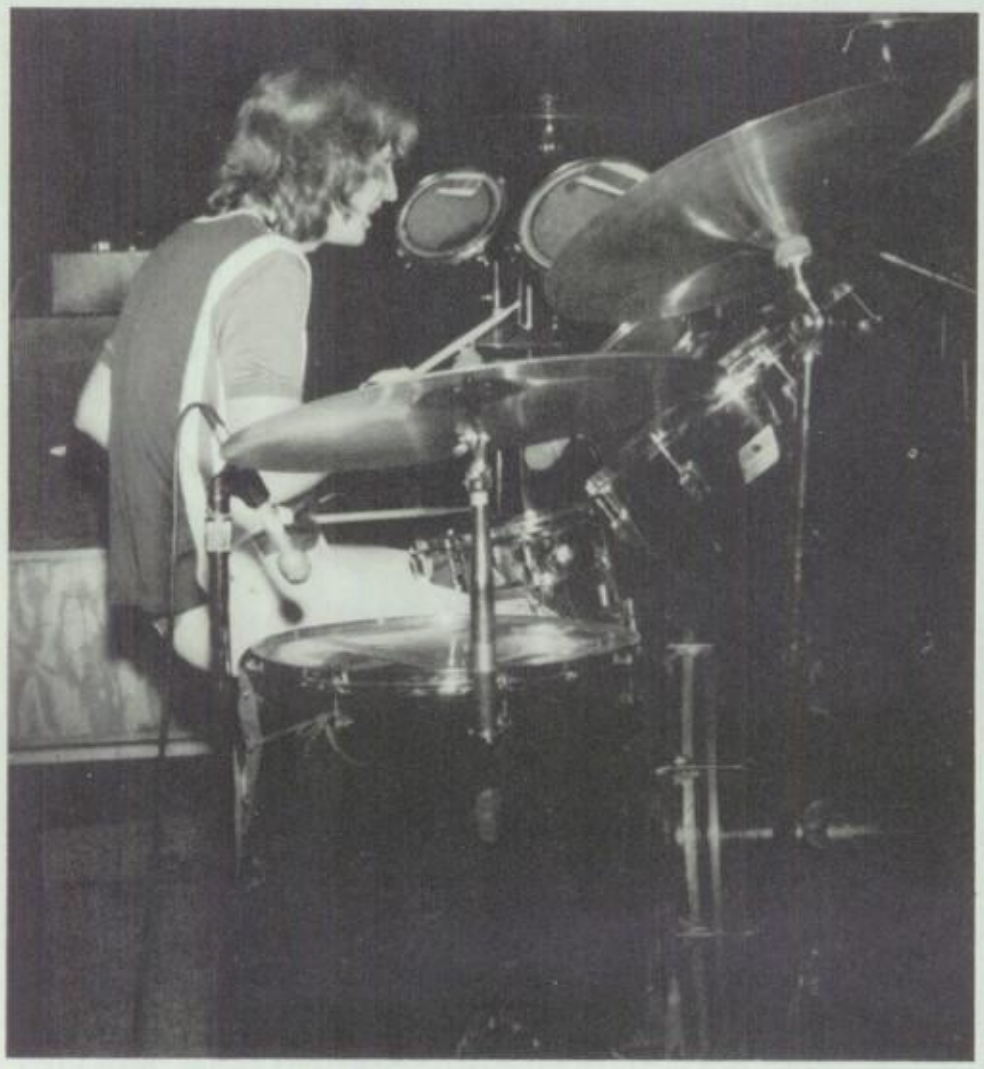
Matt Baker, John Reed and Tom Doner are shown putting up plastic for a fake ceiling. The class was going to just use crepe paper, but they found you could see through it. They tore it all down and started over by putting black plastic up first and then the crepe paper.

As if they weren't having enough problems already, the plastic kept falling while they were putting it up.

Putting up the crepe paper and the plastic for the fake ceiling and walls is one of the hardest and most time consuming jobs when decorating for prom. Carl Schneider and Andy Kroeger seem to be taking the job pretty seriously.

The drummer from the band "Sirrus" was featured on a few of the bands selections.

Prom was a time enjoyed by all. If not on the dance floor, then just sitting at the tables talking and just being together.



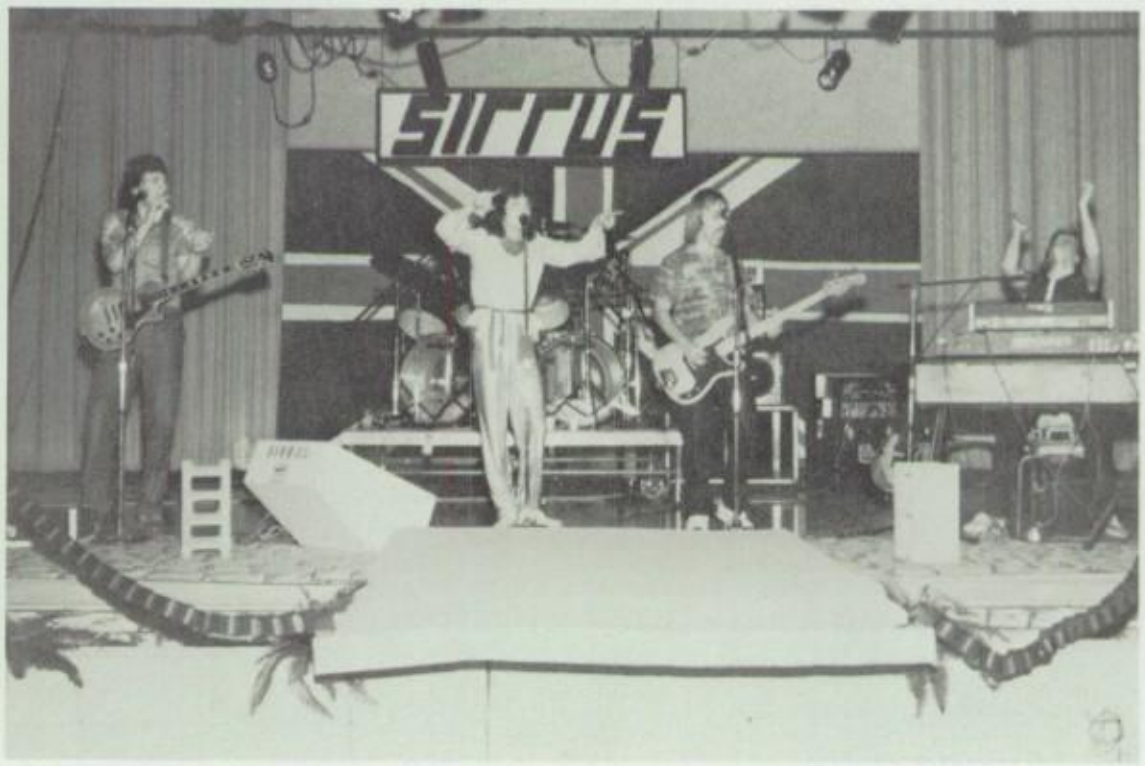
Seniors Make London Last Stop On Way To Graduation

Everyone enjoyed the slow dances. It was a time for the couple to shut out what was going on around them and just be together.

The juniors reached their destination on May 7, 1982. A night in London was the place where new memories were born. The dance was held from 8:00 till 12:00 and featured the band "Sirrus" from Columbus, Ohio. After prom was held at the Van Del Drive-In. It was a big night for all who attended and one they'll never forget. A great deal of appreciation should be given to the junior class for making this night a success.

Server Laurie Krouskop, who helped sell the mugs and keychains, was caught relaxing with a junior.

This year's band was one of the things that made the prom such a success. The band "Sirrus" played a number of slow and fast dances.



Entertainment Breaks Up the Day

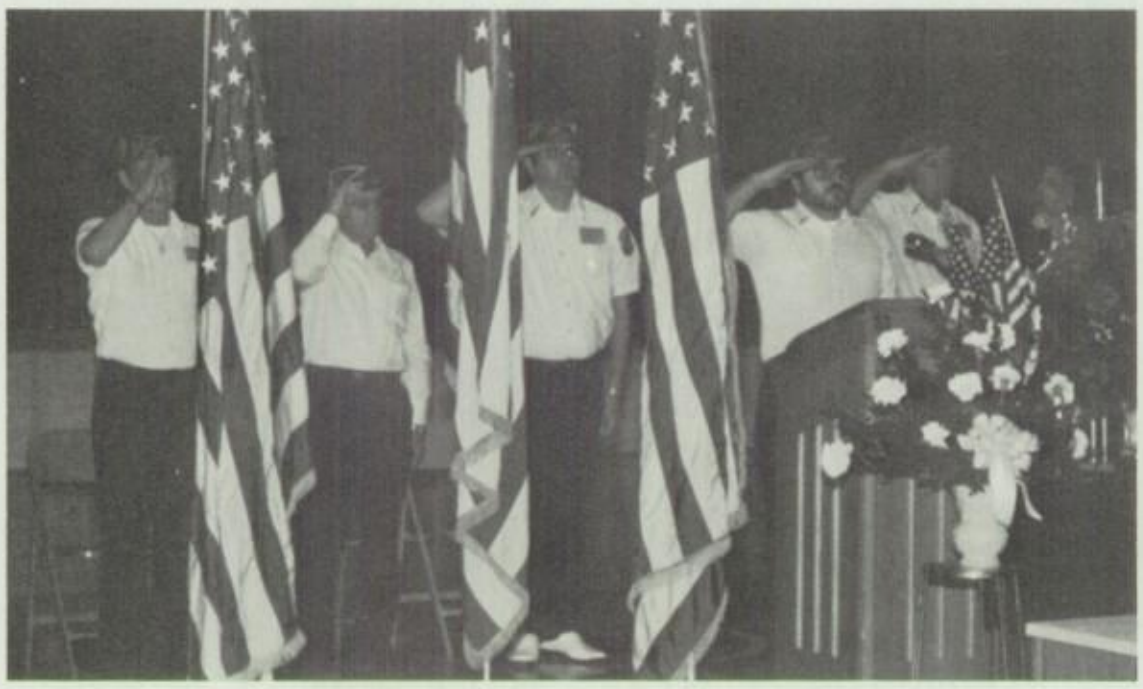
All of the 1981-82 Assemblies were held in the high school gymnasium, and were for both the high school and junior high students.

Of the various assemblies at L.H.S., the students seemed to like the frisbee one best.

A lot of assemblies had to be rescheduled or cancelled because of the bad winter weather.

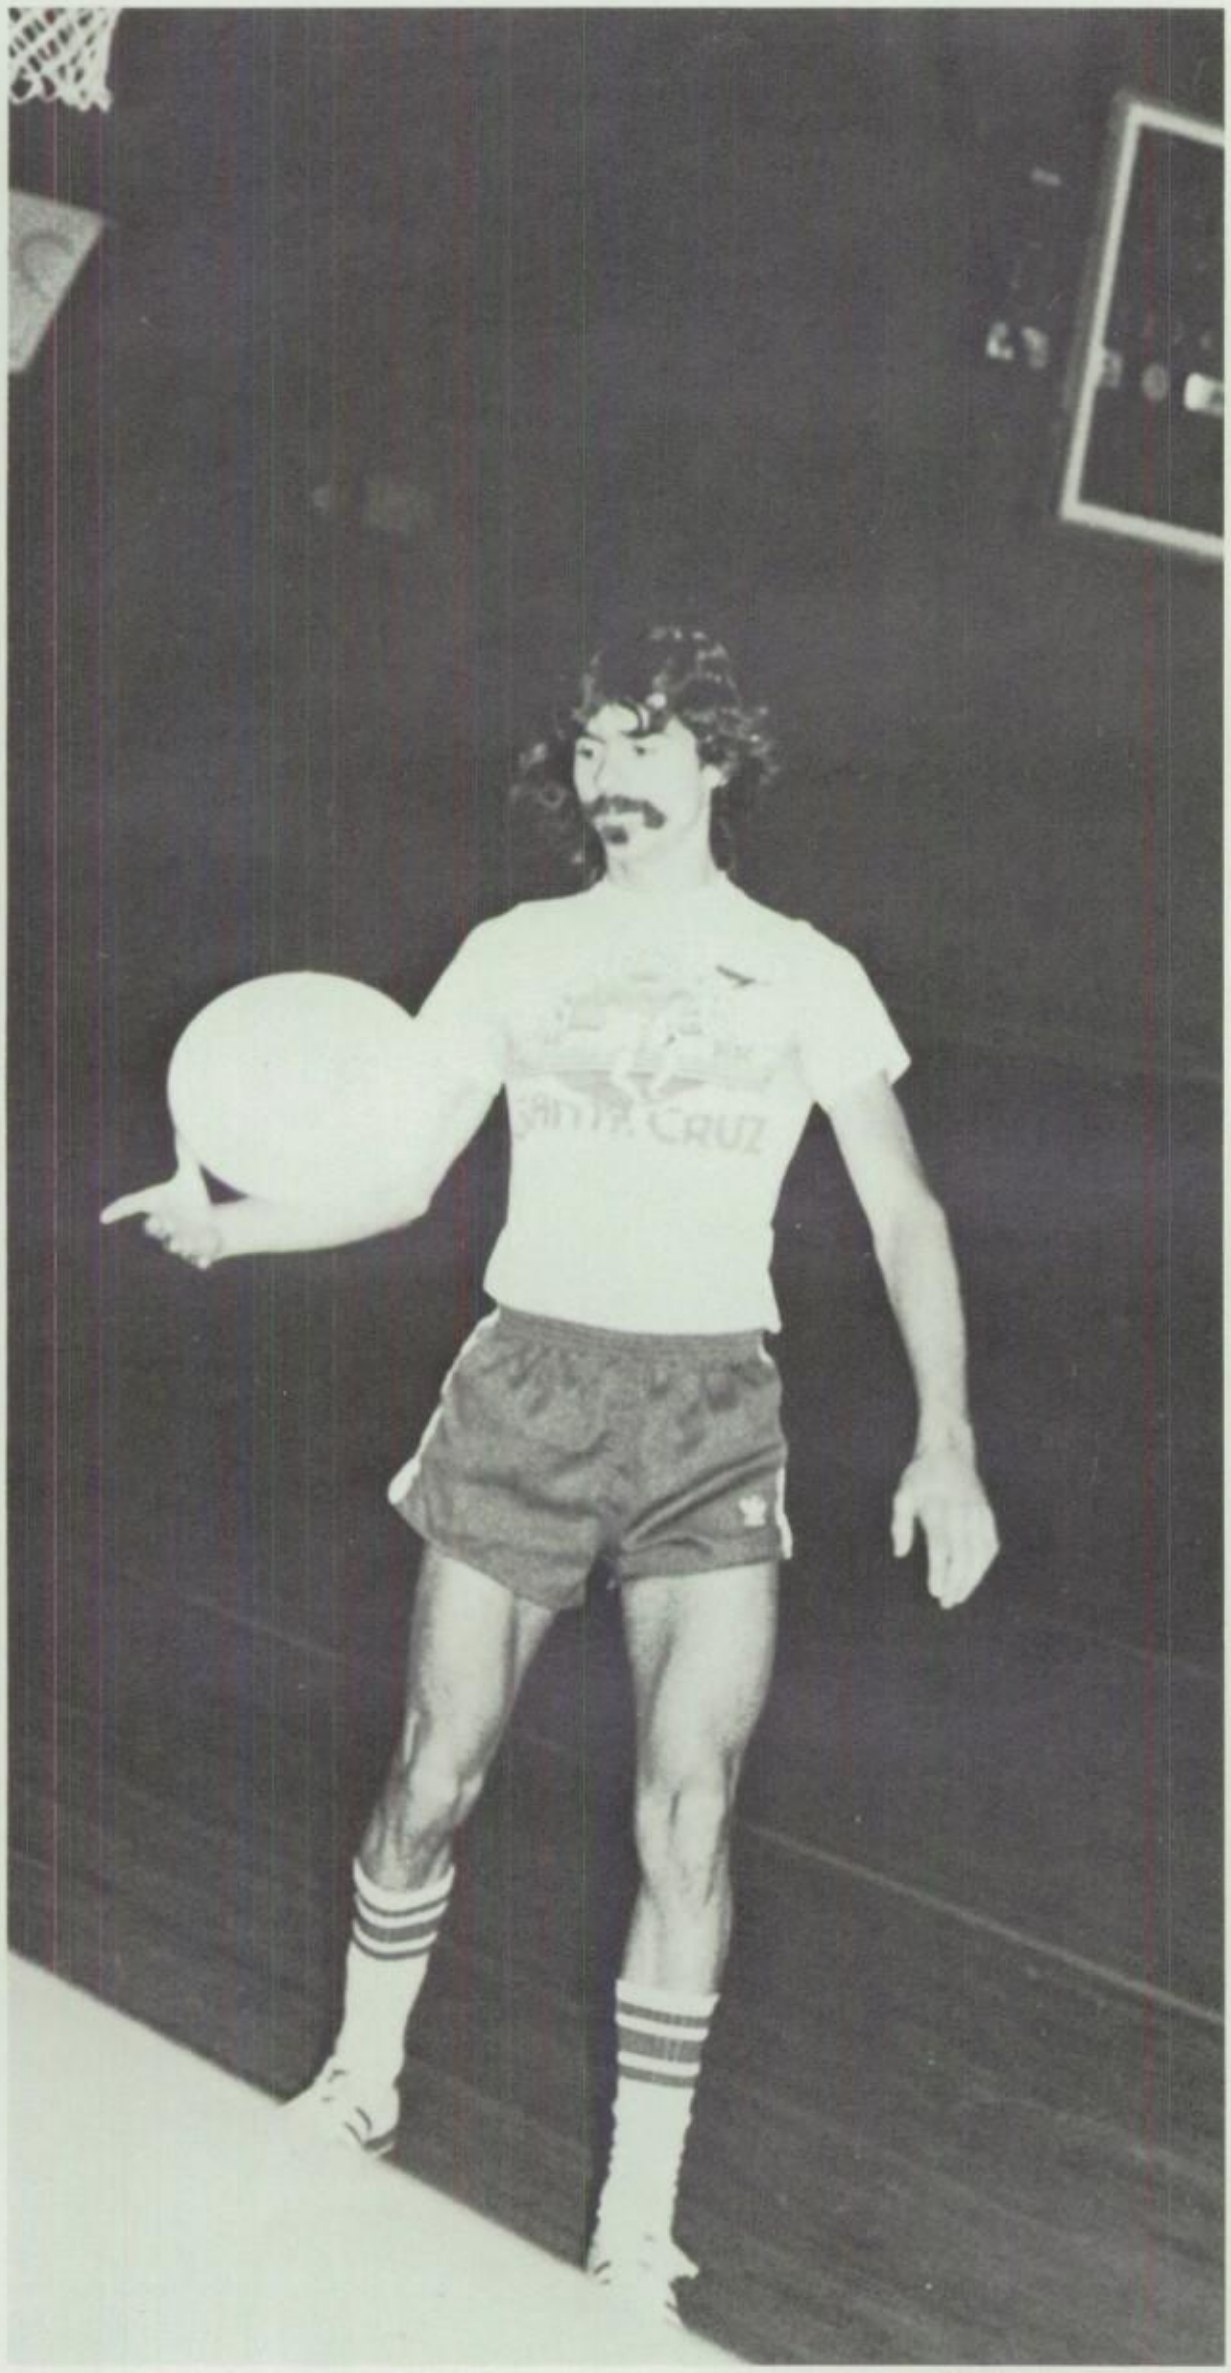
Over all, the students did a fine job of giving the speakers a great deal of respect and attention.

The two trumpeteers from the Tower Brass Quartet demonstrate their talents.



An American Legion Troop from Van Wert provides the students with a Veterans Day Assembly.

The Tower Brass Quartet performs at a winter assembly. The Quartet was comprised of 2 trumpets, 1 French Horn, 1 Tuba, and 1 Trombone.



The Jammers, a professional frisbee team, showed the Lincolnview students how to use a frisbee correctly.

Mr. Gerdeman illustrates the proper technique for catching a frisbee.

"STUDENTS AT PLAY"

Intramurals this year consisted of Volleyball, Football, Basketball, One-on-one, Whiffleball, and foul shooting. The Foul shooting contest had its winners shoot it out during the Faculty vs. Ohio State football senior members basketball game held on March 30. Helping to set up the noon activities were Seniors, Lloyd Bair and Val Thatcher.

Carl Schneider, Dennis Kaiser, Randy Ashbaugh, and Tom Doner engage in playing a game of basketball before their lunch period is over.

Ted Hart shows us his form at the charity stripe during the Jr. High foul shooting contest.

Dan Etzler, Mike Kimmey, Tim Friemoth, and Richie Jellison are shown playing a friendly game of two-on-two.

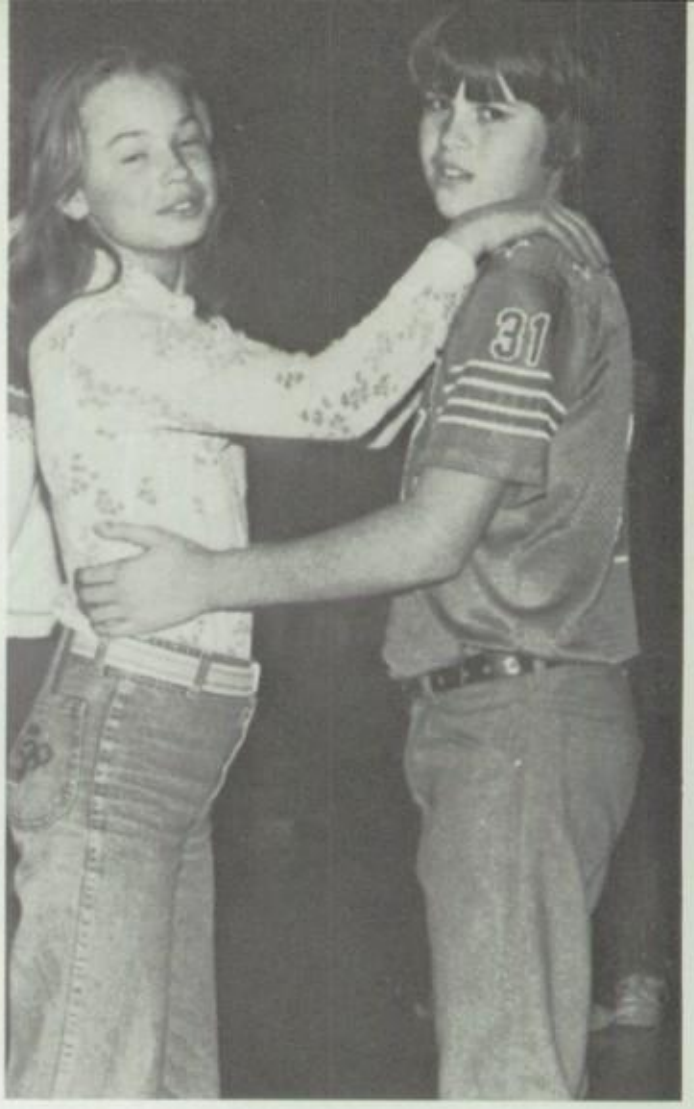
Jason Rager, Mike Patterson and Steve Arnold are shown taking full advantage of their time by playing a game of basketball.

Randy Haines, Jeff Cronenwett, and Mike Patterson are shown setting up the whiffle-ball equipment.

Tim Friemoth shows off his talents at the foul line during the foul shooting contest.

JR. HIGH JIVE !

The Junior High held the traditional 2 dances this year. The first one was held on December 18. The second one was on February 11th for their Valentines dance. Rod Bowersock and Michele Neate were honored as King and Queen while Brian Bartz and Michelle Longstreth were crowned Prince and Princess. All music at the dances was provided by Eric Germann.



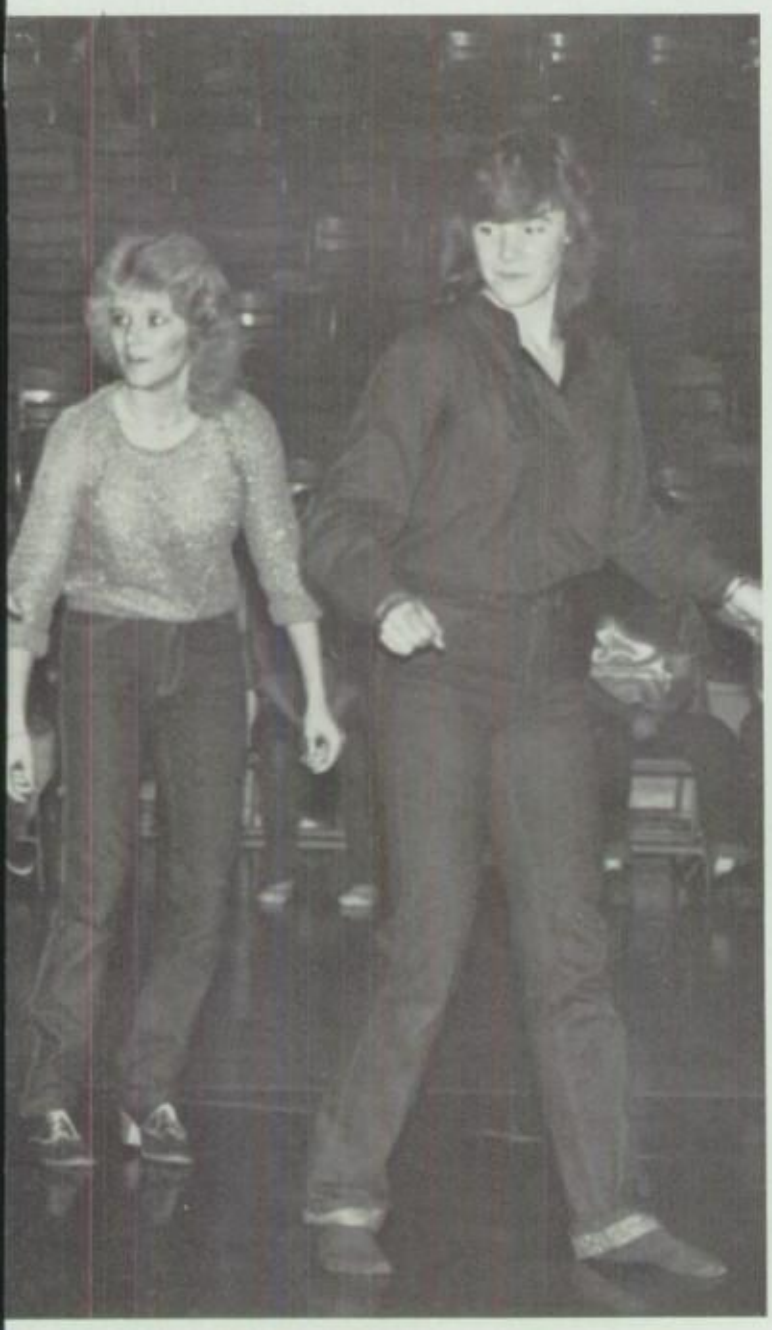
Mary Rupert and Brad Saylor seem to be enjoying the Valentines dance.

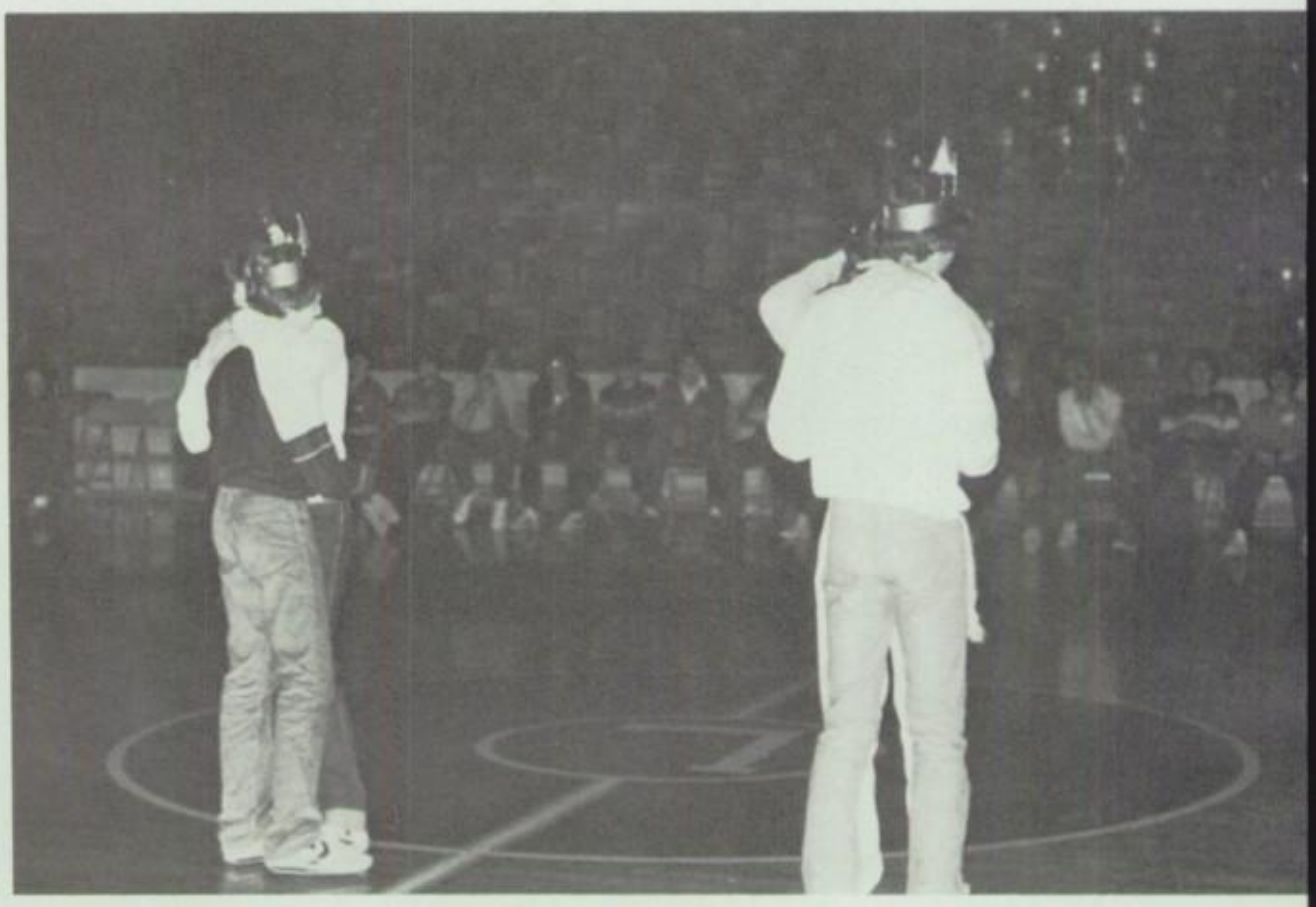
Bobbie Switzer shows everyone how it's done.

Some of the Eighth grade girls show their style of dancing by doing dance routines to the fast songs.

The Eighth grade boys anxiously await being picked during girl's choice.

The Junior High dance the afternoon away to the traditional theme of hearts during the Valentines dance.





King Rod Bowersock and Queen Michele Neate and Prince Brian Bartz and Princess Michelle Longstreth start off the first slow dance after the coronation.

The Winner Takes It ALL

Once again the tradition continues. The freshman through seniors got together for some competition. 1:00 was just the beginning of Olympic Day. There was volleyball, softball, pyramids, track events and other running events to be

won.

It was a hot but fantastic day to be outside with your friends. Vantage came over to join in on the action. There was alot to be done, and the help of everyone was needed.

The Seniors vigorously attempt to win the pyramid competition.

The day went extremely well. To finish everything off there was a water balloon toss to cool everyone down. Even some of the teachers got in on the fun. Everything went along good and the Seniors took the win with a total of 31 points.

So when your time for Olympic Day comes around get out there and help your class out. Just rooting your team on helps tremendously. Maybe your class will be "The Winner Who Takes It All!"

Senior boys are getting ready to play in the softball competition.

Sophomore, Sandy Ashbaugh serves a winning point for second place.

SENIOR SERVICE RECOGNIZED

This year something new was tried. There was a special day set aside for Seniors to receive their awards. This worked out very good, and will hopefully be carried out through the years. Some of the awards received were: Deb Young — 3rd place in the Office Education Association's National Contest held in Nashville, Tennessee., Lloyd Bair — 1st place in the 1982 Dekalb Agriculture Accomplishments, Dan Etzler — winner of the Werner Becher Scholarship, and American Government achiever. Receiving awards of distinction from Vantage were Bruce Lewis, Tom Mihm, and Pat Brincefield. Lori Saylor and Shelly Reed received U.S. History Awards.

Other seniors receiving awards were: Julie Pollock, National School Choral Award and Librarian award; Kim Mason, Librarian award; Lori Pollock, Librarian award; Kelli Miller, Librarian award; Diane Noggle, Librarian award; Marcia Kyle, English award, typing award, Annual staff, and John Phillip Sousa Band Award. The senior office helpers were: Judy Elston, Lori Thompson, Julie Pollock, Lori Putt, Kris Hire, and Lori Pollock.

Val Thatcher receives a Physical education award. Val was an intramural helper as well as a 4 year phys. ed. student.

Jose received an award for his excellence in Algebra II.

Lisa Gilgenbach received the Sr. Art award, and also was a finalist in the Ohio Governors Art Show.

Pat Brincefield receives the award of distinction in Government from Vantage representative, Jim Hammon.

Matt Woodyard receives the citizenship award. Matt also received recognition for scoring an 84% on the Americanism test, as did Lori Dixon.

Seniors await with mixed feelings as the last day of school comes to an end.

Lloyd Bair won the De Kalb agriculture award for the outstanding Vo-Ag student.

"We're through in 82"

Julie Stokes is granted her diploma by School Board Vice President, Chuck Hammons.

Cathy Jones seems to be reflecting on this special moment as she marches up to the stage.

A special moment for the seniors is to move their tassles from the right side to the left: reflecting the last step toward being an adult.

The Seniors were blessed with a fine day for their graduation. Everything ran smoothly for a perfect day. Seniors receiving awards were: Kim Mason — Amstutz-Jones Campus Life Scholarship, Alesia Yakos — Ohio Academic Scholarship, Julie Pollock — Arlene Morris Scholarship, Matt Woodyard — Middle Point Lions Club Scholarship.

Speeches given by valedictorian, Alesia Yakos, and salutatorian, Val Thatcher were very touching and sent out a message to each and every graduate.

Flowers were given in memory of Joe Hammons and Mike Beair.

Matt Woodyard, Class President, gives an inspiring speech comparing life to a runner.

The Seniors added a nice touch to the graduation ceremony by singing, "If You Remember Me." Some of the girls seen to be realizing that this will be their last time together.

The 75 graduates' final exit from Lincolnview High School. They will go on to their family hosted parties and also a party hosted by Senior class President, Matt Woodyard. They will now enter into the real world.

COUNCIL MEMBERS KEPT ACTIVE

This year *Student Council* had many activities planned for students. They sponsored their annual Homecoming ceremony and dance. They also held Student Council week where everyone was given a Garfield button which said, "I hate Monday's," a green day where everyone wore green and Friday a raffle was held giving away a calculator. The president of the council won; was it fixed? The goals for the year were to promote school pride and to have an upgraded Homecoming. Student Council members went before the School Board of Education to have their constitution changed so only one member could come from Vantage and a long needed increase was permitted for school dance prices.

Safety Council had more members, 11, than any other county school.

Advisor Miss Rozevink listens to the opinions of students and directs their activities.

The Lincolnview National Honor Society only had 6 members at the beginning of this year. They did such things as cake raffle during a basketball game, went to the Crestview NHS induction, and had a pizza party with the Delphos Jefferson NHS. This year at the induction, four of the girls gave a speech on each of the following: Character, Service, Leadership, and Scholarship. Arden Blythe gave a speech about desire. There were guests from Crestview, Delphos Jefferson, and some of the old member's parents. For the induction ceremony, an old member went up to the inductee was sitting and "tapped" them on the shoulder.

The program ran fairly smooth except when Val Thatcher said that LeAnn Miller was a son instead of a daughter, and when the members were to say the pledge, Val said to repeat after her but no one did.

There was a reception held in the library for guests, members, and parents.

WHAT'S THE NEW NEWS?

Kim Mason, Lori Thompson, and Lisa Gilgenbach are stopped for lunch between classes at the Journalism Workshop in Bowling Green.

What's new in the news? Well, the changes in the yearbook involved a lot of time and extra effort. Several subjects were dropped, while new were added. They added Academics, which includes the students in regular class activity, and Student Life, which is what the students do with their time outside (?!?) of the classroom. The Lancer's main goal is focused on the students instead of groups.

Bass Guitar Replaces Tuba

The marching band performed many routines, but this dance routine was the band members favorite.

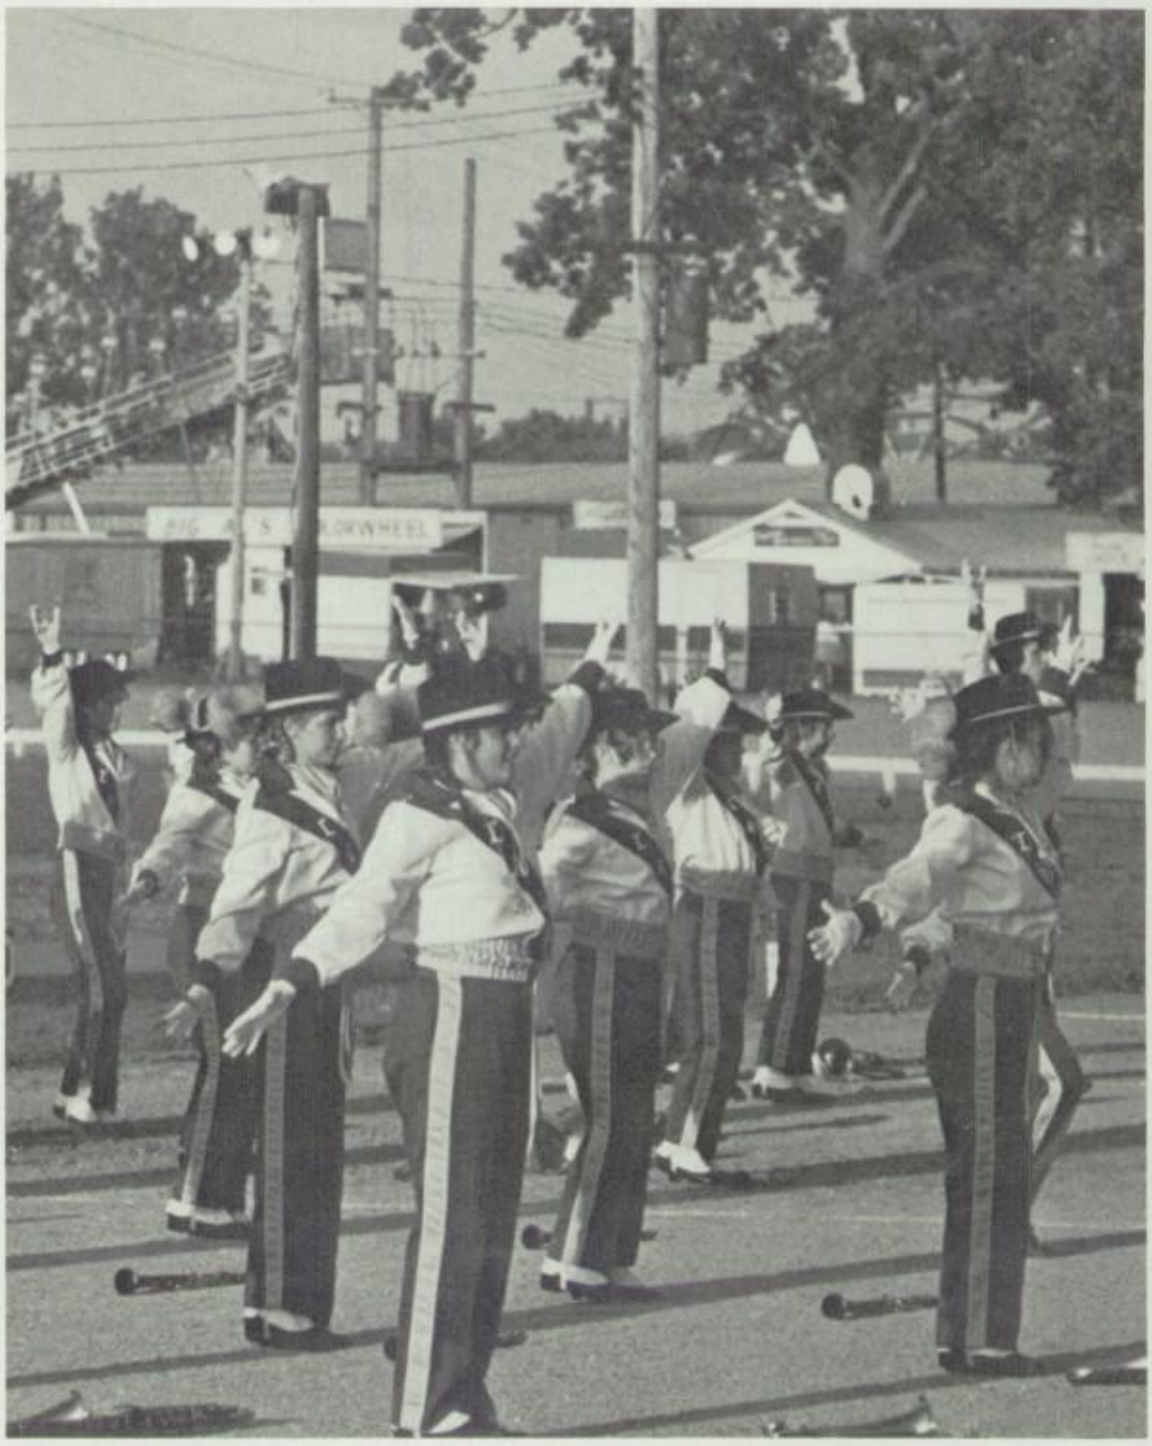
The band started out a very busy fall with band camp. Band camp was held during a very rainy week in Aug.

The marching band performed in the County Fair Band Spectacular and the Convoy Days competition. They also marched at Cedar Point and in various parades around the county.

As winter approached, the band shed their marching instruments and focused on the various concert band activities.

Several band members went to solo-ensemble contest in February. The entire band went to Contest in March. A panel of judges rate them and tell them areas that need improved.

The band purchased a bass guitar this year to take the place of the tuba. The band doesn't have a tuba player and it is needed to add a foundation to the band.



The pep band plays at every home basketball game. They entertain the crowd at halftime and in between the reserve and varsity contests.

The 1981-82 Band Officers are; 1st row: Marcia Kyle, V.p.; Lloyd Bair, pres.; Alesia Yakos, secr. 2nd row: Lynda Lape, Librarian; Lori Thompson, Historian; Mr. Upton, Director; Missy McMillen, treas.; and Yvonne Adam, Librarian.

The band performed a dance routine to the drum feature "Syncipated Clock" at the County Fair show.

Mr. Upton picks up the slack of not having a tuba player in the pep band.

Sabrina Fraker, Lori Thompson, Missy McMillen and Head majorette Keri Johnson are the featured section of this band routine. They chose to highlight their talents by twirling fire.

LANCER CHOIR DEBUTES ON TV 33

A TV appearance would make anyone nervous, so the choir took a few minutes to relax before the taping started.

A new tradition was formed at Lincolnview this year. The concert choir will be performing a Christmas special every other year with the Crestview concert choir on TV 33. This is possible through Kennedy Manufacturing Co. Every year Kennedy will sponsor two of the county schools. Next year Van Wert and Ohio City's choirs will be featured. This makes all the long practices worth while to the students involved. Besides the television performance, the choir also put on Christmas, Winter, and Spring Concerts. On March 20, the choir also participated in the District 3 choir and band contest. The choir finished out the year by singing at graduation.

Members of the 1981-82 *LINCOLNVIEW CONCERT CHOIR* Row 1: Julie Pollock, Helen Flores, Rick Snyder, Robbie Thompson, Kelly Hammons, Kelly Dickman, Melanie Babb, and Stephen Parker. Farm Kids Futures

KERPOW! After the FFA started the year as any other with the state and county fairs, inducting new members, learning about fertilizers at Smith and Douglas, (after which we ate pancakes), and killing chickens.

The somewhat ordinary year with the somewhat ordinary advisor suddenly exploded! Mr. Gerdeman lost his keys while picking corn with Sr. Vo-ag class, which we never found. Then National Convention time came around and he flew out with his wife to receive the Honorary American Farmer Award. When asked how he felt about receiving such an award he is quoted as saying "I was thrilled, honored, and overwhelmed by the actions of the school and the people of the community by the special assembly and all the nice comments." Plus the Varsity Parlimentary Procedure team received a gold in the Parlimentary Procedure contest in November.

Killing Chickens! Brent Neate demonstrates how to chop a hens head off. In Vo-Ag III, the class kills, plucks, cuts up and finally eats the chickens they kill.

Skills for Today's Homemakers

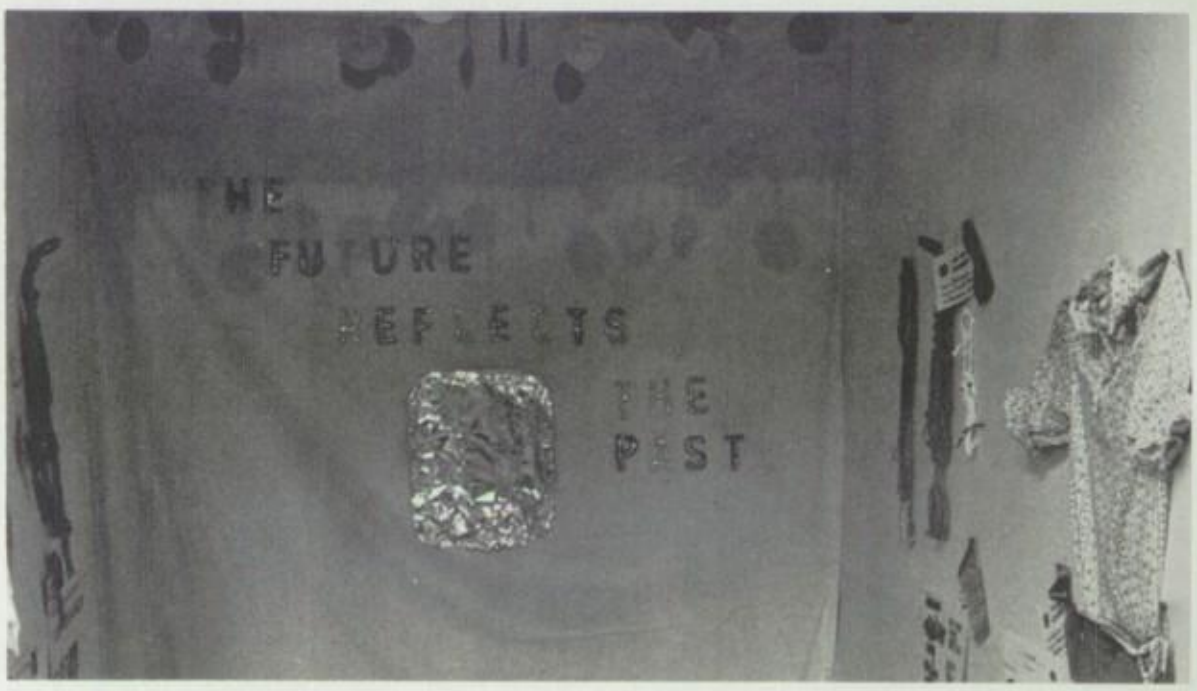
The Future Homemakers of America (FHA) is striving to teach people how to survive living alone. The motto this year was "Helping Other People". Some of the activities include: Having a display at the county fair in the Jr. Fair building and also a float in the annual 4-H Parade. Some of the members toured the Children's Hospital in Columbus. For FHA week, which was February 8-12, the members held the following events: On Monday suckers with ribbons were sold, Tuesday the FHA/FFA Valentines dance was held, Wednesday was a tag day (tags were put on members lockers), Thursday all the teachers were given apples and Friday all students were to wear red and white.

At the dance, the music was supplied by Matt Woodyard who brought in his stereo. There was a King and Queen this year and also a Prince and Princess The King and Queen were Kevin Thatcher and Julie Pollock, Prince and Princess were Nick Williams and Kathy Yates.

Members also went on a Heart Fund Drive with the FFA on March 7 and raised a *little over $200.00.* A banquet was held on April 28, 1982 for all members and their parents or guests.

Linda Lucier's knitted sweater won an Outstanding Clothing Award and an opportunity to compete at the State Fair in Columbus.

Festive home decorating is part of the holiday season.



As every year, the Lincolnview FHA chapter prepares a booth following the theme guidelines given by the Fair Board.

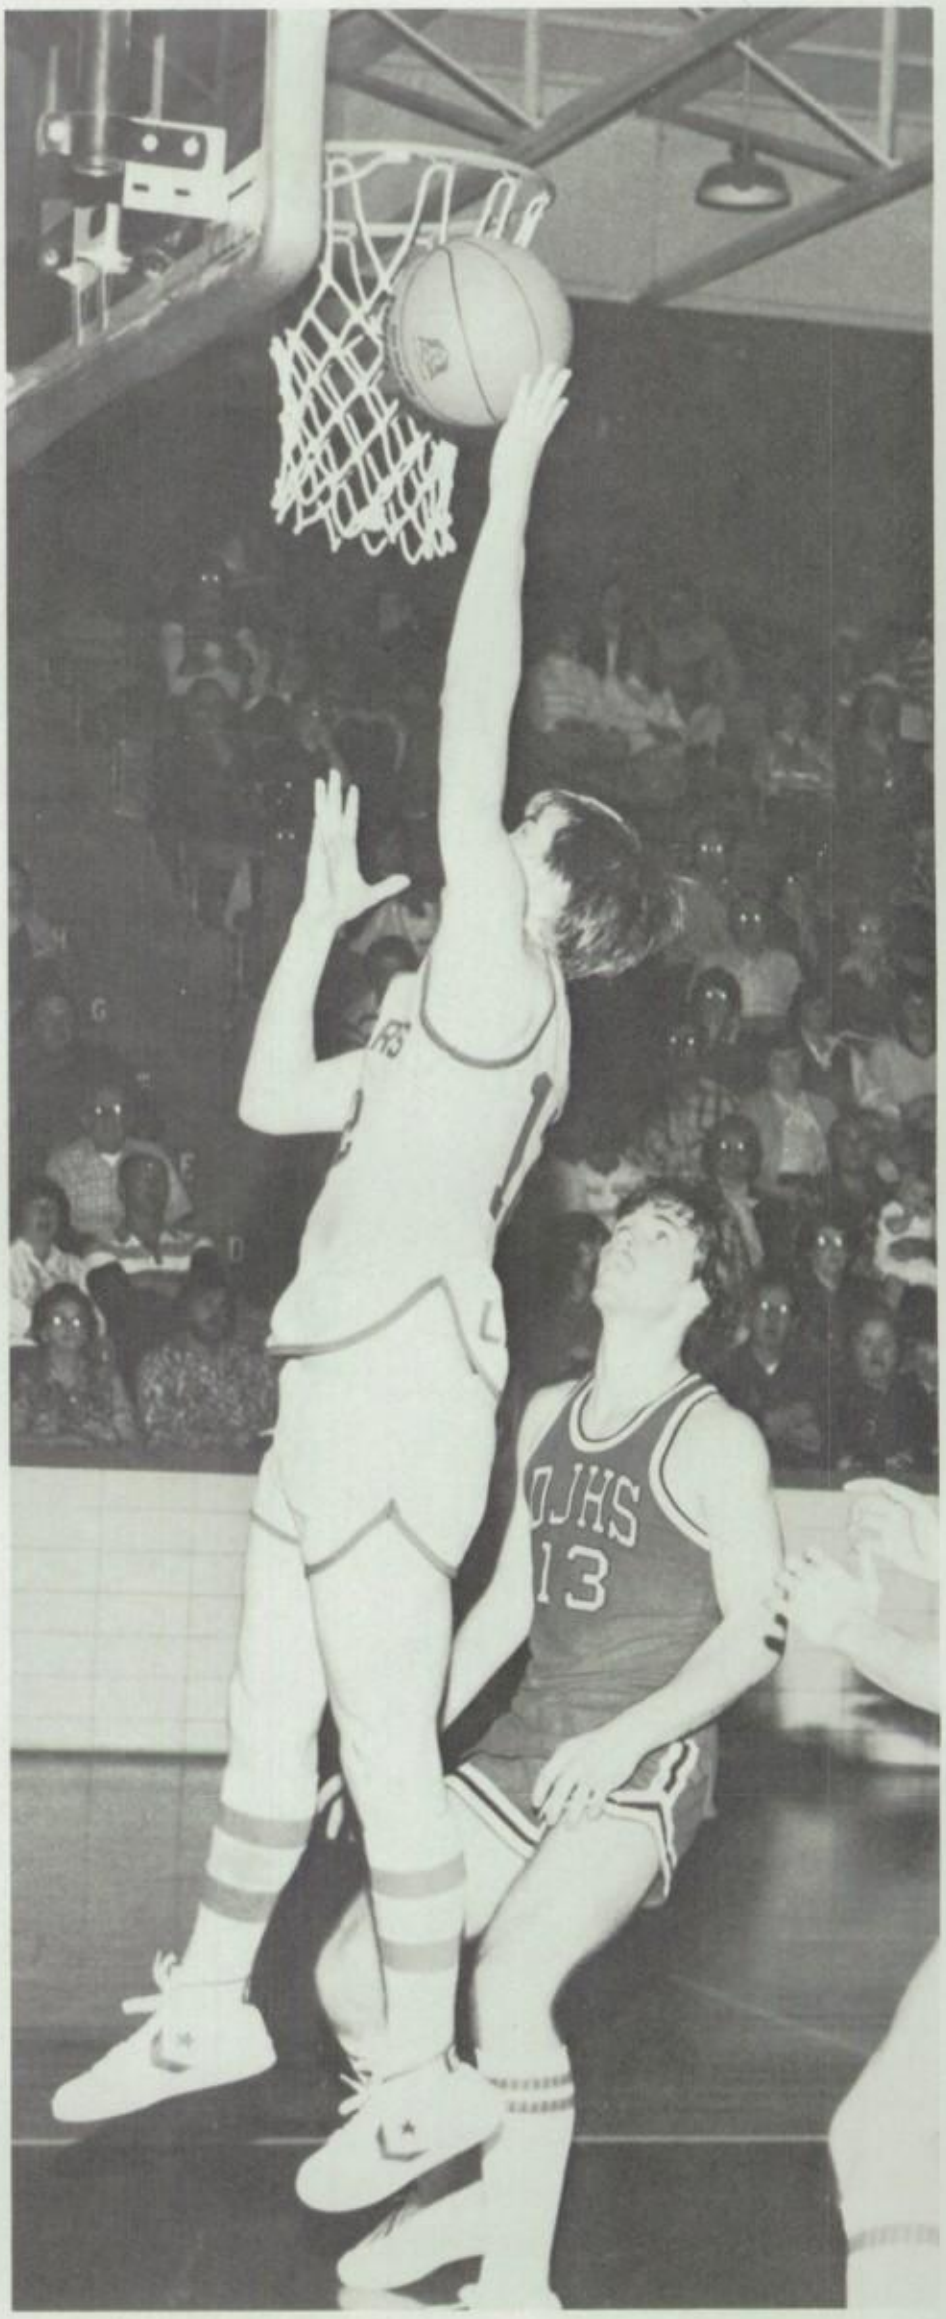
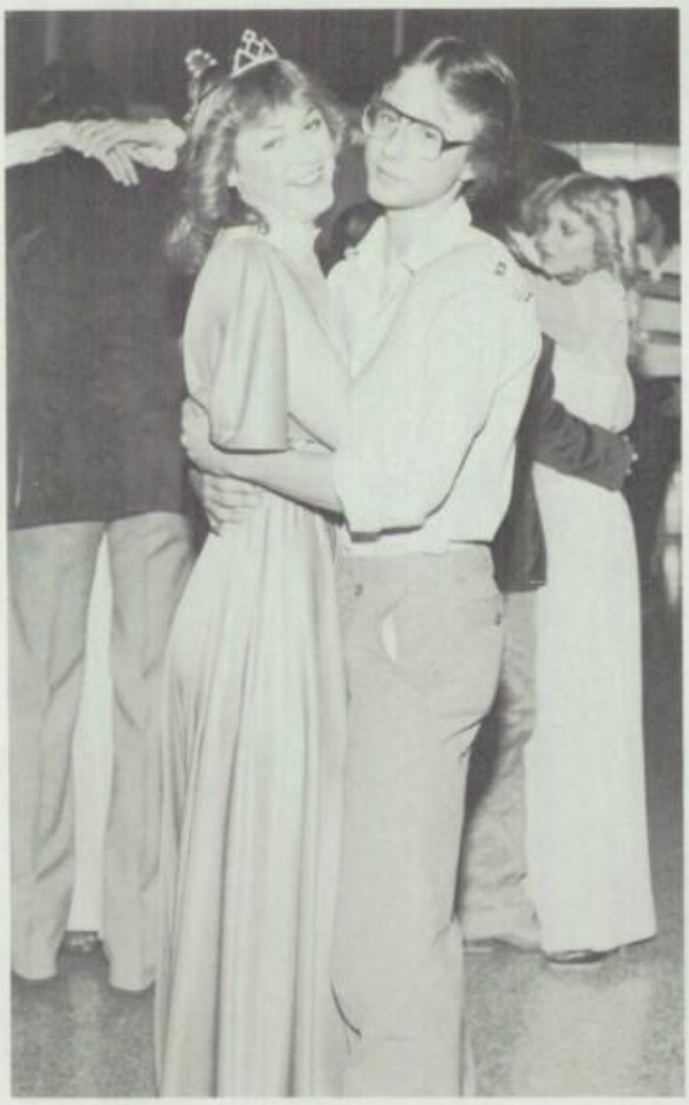
HOMECOMING 1981 BROUGHT ENDLESS MEMORIES



Tracy Baer, Sr., Driving for one of his many lay-ups against Delphos Jefferson.

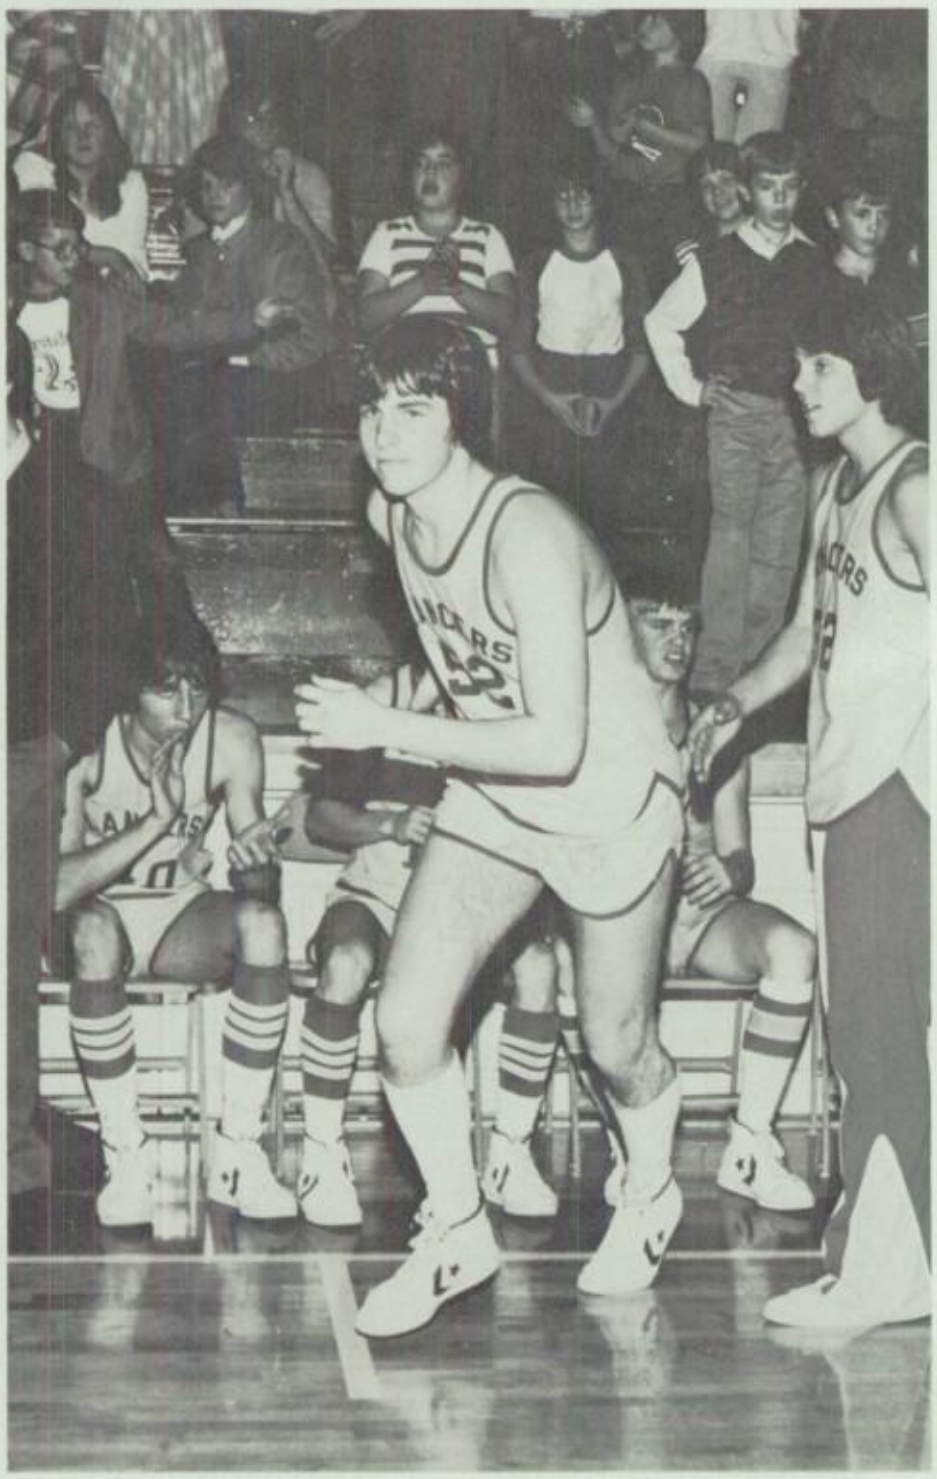
WE WON — First Homecoming game won in 5 years. On December 11, 1981 Student Council sponsored their annual Homecoming. The Lancers won an exciting game over Delphos Jefferson 59-47. Miss Lisa Yakos, daughter of Mr. and Mrs. Ed Yakos was crowned 1981 Homecoming queen. After the game a dance was also sponsored by Student Council and refreshments were served. ENDLESS LOVE was the theme of the dance and it was the first semi-formal Homecoming dance. No one wearing jeans was admitted.

Lisa Yakos, Sr., and Troy Kerns, Jr., pose for a picture during the Queen's Dance.



Student council furnished homemade munchies for the famished fans who took a break during a fast dance.

Couples enjoy dancing to the band Sirrus.



Jeff Ray, Soph., is prepared mentally for this game! "It was important to win because it's been a long time since we won Homecoming," he said.

After Bob Evans sr., presented the crown (and kiss); Tracy Baer sr., presented the new twist — a white sash, (and a kiss); Sr. Dennis Putman presents Queen Lisa with 6 yellow roses and, of course, a kiss!

A slow dance to the band Sirrus was a good way to start out the evening.

RUNNERS TURN IN SUPERB SEASON

The 1981-82 Cross Country team had a great season. At the Fall Sports Banquet Matt Woodyard was presented the MVP award, and Todd Hunt the MIP award. Val Thatcher, Sr, the only girl on the team this year had a swell season. Val qualified to run in districts, but unfortunately injured herself, and could not compete.

The Cross Country practices were sometimes held at the Middle Point Quarry and the Van Wert Reservoir. One day at the M.P. Quarry they had a mud fight, nobody won. The stats for the 81-82 year were Annette Kirkendall, Yvonne Adam, and Dawn Baker. Also this year Matt Woodyard Sr, broke the old school record. Way to go Matt!

Lancers set tee-off record

The golf team warms up on the putting green before their first match.

One. Two. Three. Five. Seven. Nine. The Lancer golf team teed off against Crestview a record number of nine times. This set a new school record. The team finished the season just 3 strokes off the 9 hole school of 160.

The team came off the greens for the last time of the season with a 12-16 record. They placed 5th in the NWC tournament and 6th in sectional action. The four man varsity squad averaged 179 on nine holes, with 345 being their lowest on 18.

Sophmore Greg Sterling was named as the most valuable player at the Annual Fall Sports Banquet. Senior Tim Friemoth was named as the most dedicated player.

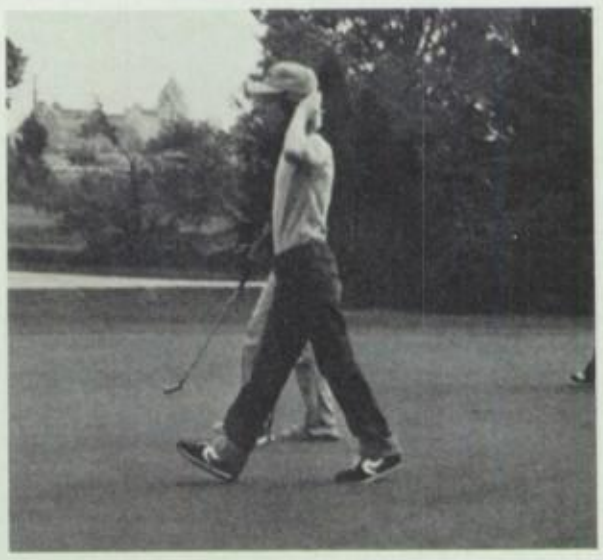
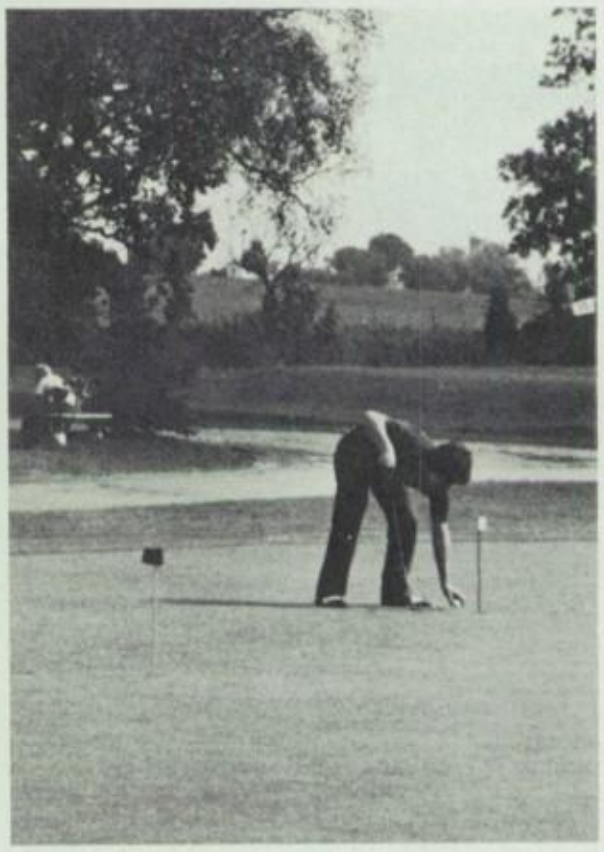
Senior Tim Friemoth collects his thoughts while on the putting green. Tim was the captain of the 1981 Golf team. Coach Rohrs commented that Tim was the hardest worker on the team. Tim has been a member of the golf team for four years. Tim's lowest score this year was a 39 against Antwerp.

So. Greg Sterling made fast improvements and he averaged 44 on 9 holes.





So. Mike Johnson was the most consistent golfer. He averaged 44.4 on nine holes.

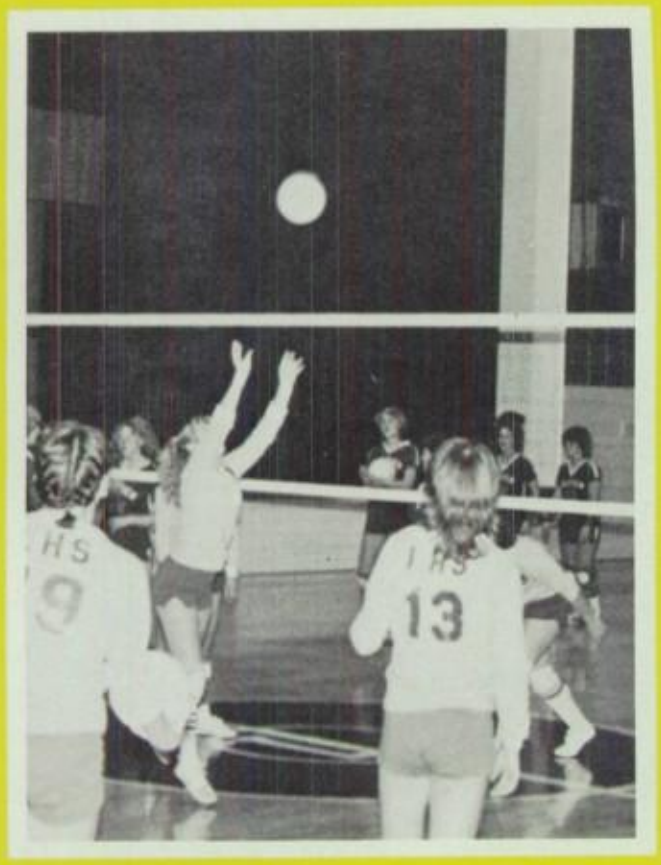
Senior Val Thatcher spikes the ball in a close match against the Crestview Knights; 10/15, 16/14, and 15/17. Val's spiking average is 88%.

Co-Captains Judy Elston and Val Thatcher charge through a sign made by the team to open the match Crestview.

VOLLEYBALL SURVIVES!!!



"To be or not to be," was the question the Volleyball team had running through their minds this year. Would Mrs. Kiehl stay on and coach both reserve and varsity, would she quit, would they get a new reserve coach, would they get to finish the season, would volleyball survive?!? Luckily, all questions were answered and the disputes were over when Mr. Lane Monroe was hired as reserve coach and Mrs. Kiehl stayed on as head varsity coach.

Despite all the controversy the Varsity team finished with one of the best seasons ever. Val Thatcher was named to the Northwest Conference Team and was chosen Most Valuable Player. Kim Heidt, So., was named Most Improved Player.

The Reserve team had a good year and showed that the new tradition of volleyball quality will continue through the years. Co-Captains were Angie Evans and Linda Lucier, both are juniors.

Something new was added to the team's schedule this year. This was a tri-match scrimmage with Lincolnview hosting Crestview and Spencerville. This was to prepare the teams for tournament action.

The Lady Lancers were stopped in tournament by Ottoville in the first game of sectionals.

Sr. Judy Eston sets the ball as Sr. Debbie Young goes up for a spike. This is one of the many warm-up exercises the team does before the game. Sr. Judy Elston has a setting average of 97% and Sr. Deb Young has a spike average of 50%.

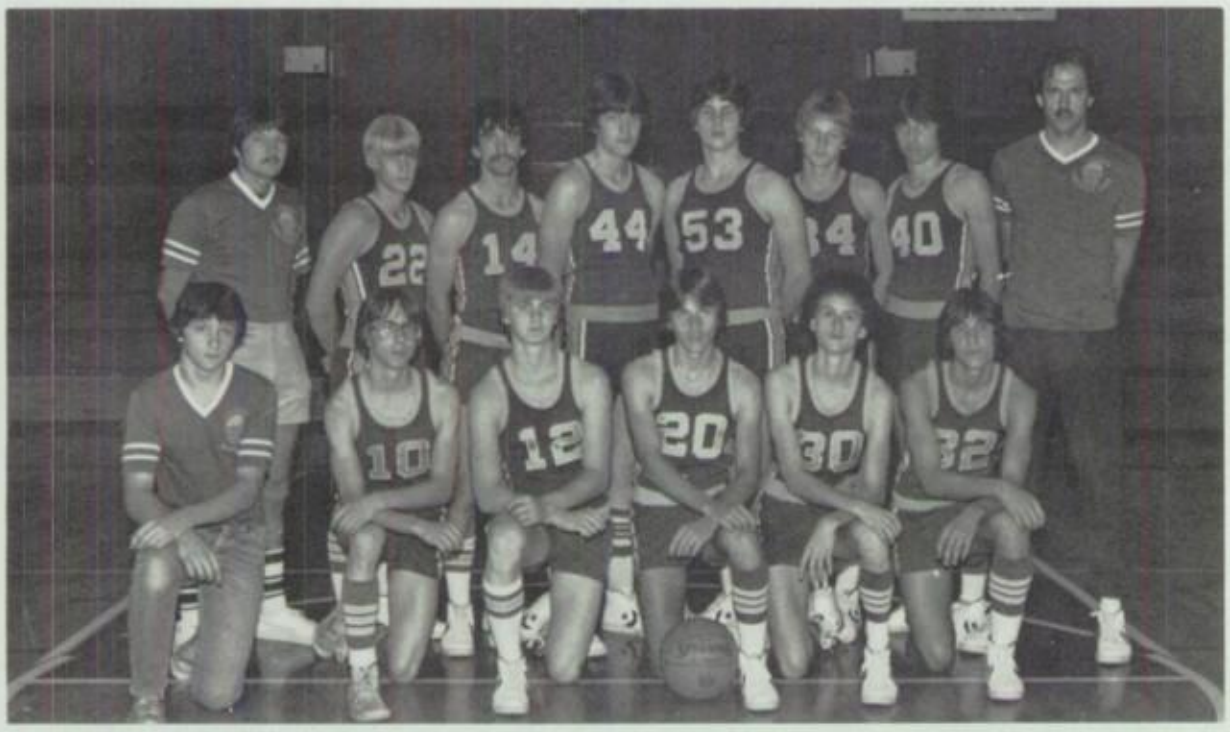
Team members: Kneeling: Mgr. Tim Roberts, Troy Kerns, Tracy Baer, Tim Friemoth, Carl Schneider, Brent Neate Standing: Assit. Coach Mr. Monroe, Mark McCleery, Bob Evans, Dennis Putman, Jeff Ray, Tim Thompson, Gregg Profit and Head Coach Mr. Bryan.



The Lincolnview Varsity Basketball Team started out with 5 seniors, 3 juniors and 3 sophomore, but during the year many changes occurred. Two of the sophomores, who played both varsity and reserve at the start of the season ended up playing just Varsity. Injuries kept Brent Neate, Mark McCleery and Tim Friemoth off the court for awhile, and due to unfortunate extenuating circumstances, Tracy Baer didn't finish the season with the team. The team improved their record even with the changes. Last year having a record of 3/21 to this year's record of 5/16. In tournament action the Lancers drew the Antwerp Archers. In regular season the Lancers had beaten the Archers but due to an off night the Lancers lost by a score of 61/72. At the Winter Sports Banquet the following awards were given: Most Rebounds — Dennis Putman (9 per game), Highest Field Goal 47% — Gregg Profit, Best Free Throw 71% — Mark McCleery and Most Dedicated — Tim Friemoth.

The Future Looks Bright

Both the Reserve and Freshman basketball teams ended the season with fine records. The reserve squad finished with a 6-14 record, and the Freshman ended with a record of 4-10.

Of the fourteen times the Lancer reserves were tossed a defeat, seven were lost by less than ten points. These close games really gave the Lancer fans something to cheer about. When asked about the season, Coach Monroe had the following comment: "We had a lot of close games that could have gone either way. If these players continue to improve and gain confidence in themselves, we can look forward to some exciting basketball here at Lincolnview in the next few years."

The Freshman team started out on a hot streak winning their first three games. They played Allen East in N.W.C. tournament action. They lost the clash 43-54. Coach Roberts stated, "I was pleased with the improvement of individual players throughout the season."

Steve Zirkle guards against opponent invasion of the basket.

Robbie Thompson seems to have 3 of his teammates leading him toward the basket.

Cheerleaders Ignite School Spirit!!!

During an assembly held on Halloween costume day, reserve cheerleaders Penny Klinger and Susan Allen are trying to figure out what made Sophomore Chuck Speery so happy. What was in the spirit box that made three team members come out smiling?

The BIG MOUNT was a tradition at Lincolnview this year. Before each Varsity game, during the announcements of the team members, the cheerleaders proved to everyone that balance and coordination are important. A new addition to the cheerleading squads this year was mascot Christy Snyder.

The 1981-82 Varsity, Reserve, and Freshman, cheerleaders were chosen on May 7, 1981. In the summer of 81 the Reserve and Varsity squads attended The Dynamic Cheerleader Assoc. Camp at Ohio Wesleyan University, in Delaware, Ohio. The varsity squad came home with the squad unity award for getting along with each other the best of all the other squads. They also came home with five other ribbons for various achievements. Out of the reserve squads that attended the camp Lincolnview's reserve came home with third place. Their day started at 6 a.m. and ended late in the evening. The goal of our cheerleaders this year was to raise more school spirit and to accomplish new ideas. The Pep Band this year consisted of 10 regular members plus Mr. Upton. The number is usually increased with Ms. Rozevink's help on the tuba and Mrs. Reichard's help on the flute. The Pep Band plays for all the home games and pep assemblies. The squad sold cookies every Friday as their money making project. This went over good with students and faculty. Also, the spirit squad sold Lancer buttons. The spirit squad tries their hardest to help the cheerleaders raise school spirit, but they wish they had more cooperation from the student body.

Track Team Breaks FOUR records!

Leading the Lancers in their record breaking year were: Troy Kerns, Lloyd Bair, Jon Jones and Bruce Lewis setting a new school record in the 400m relay at 46.6. In the 100m dash Troy Kerns broke the record with an 11.7. Bruce Lewis jumped his way into the record books with a 20' 8½" long jump. Also, the 3200m relay team consisting of Norm Geckle, Richard McMillen, Dan O'Keefe and Brad Schwartz ran a new record of 9 min. and 11 sec. Matt Woodyard was looking for another very successful season, unfortunately an injury to his back prevented him from finishing the season. At the May 24th Sports Banquet Most Valuable Player was given to Troy Kerns and Most Improved Player went to Brent Neate.

A bright addition to the track teams this season were brand new warm-ups. Both teams participated in a Run-A-Thon to raise approximately $1300.00. The total bill being near $2,000.00 The Athletic Department made up the balance.

Brad Schwartz strides out to bring home the last leg of the 3200 meter relay.

FADS

The Lincolnview students had many different fads to keep up with this year. Sony Walkman Radios were quite popular, as students could put the radio in their purse and throw on the headphones. With the headphones on, the students' ears were protected from the deafening beeping noises coming from the arcades everynight, as the video game craze swept the nation.

The school was extremely quiet for a few months during the winter when students got their hands on a Rubik's cube. The 6 sided cube had 43 quintillion possible configurations.

Teachers couldn't keep the student's attention after the Casio CA-90 watch was introduced. In addition to the regular functions, it also played Space Invaders.

Across the Nation: Preppies turned to personal computers to tell them how much weight had been lost on the Beverly Hills diet that they had went on to fit into the new metallic accessories.

Hands Prove More Valuable

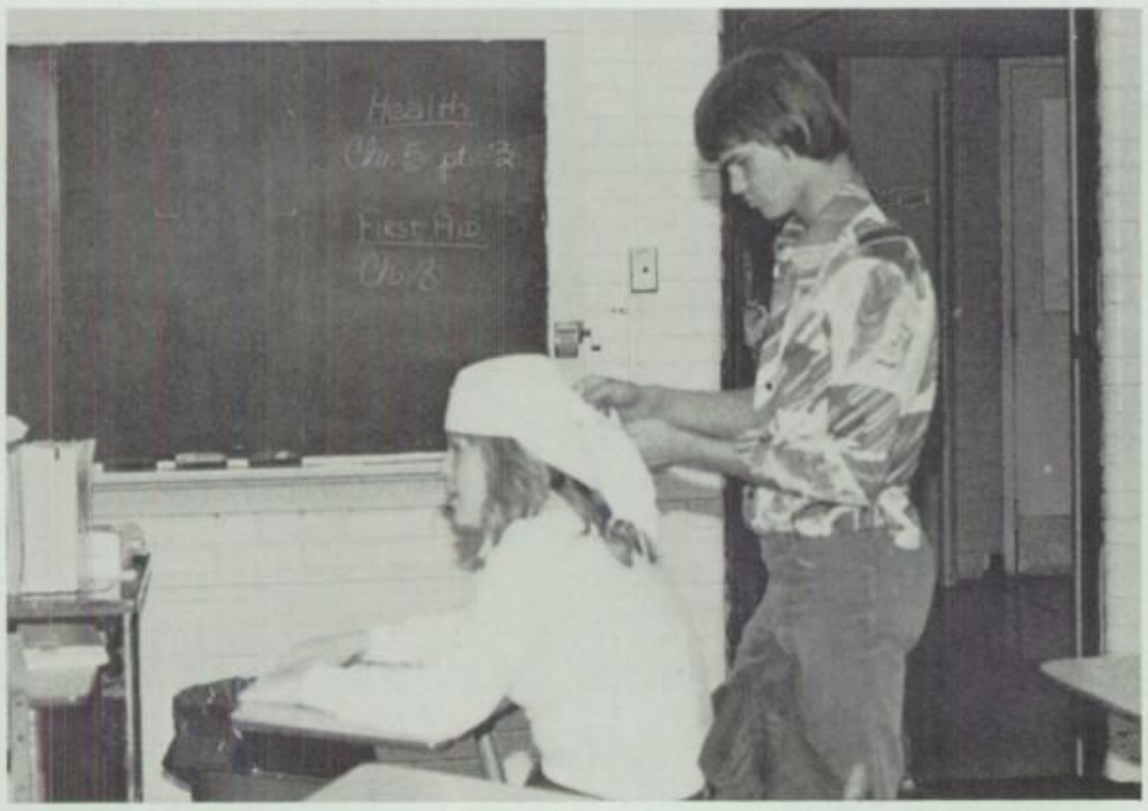
The fine arts department is divided into seven sections. As you can see from the pictures, they range in a variety of skills. This department gives the students a choice to learn skills that you can't learn from a book. Most of the knowledge learned in this department is from first hand experience. Physical Education, Home Economics, Vocational Agriculature, First Aid, Art, and Industrial Arts, provide a variety of choices for the students to pick something in which they can excel.

Chad Adams and Jason Adams are painting ceramic objects. Along with painting and drawing, the Jr. High Students learn to mold clay, fire it, paint and glaze ceramic figures.

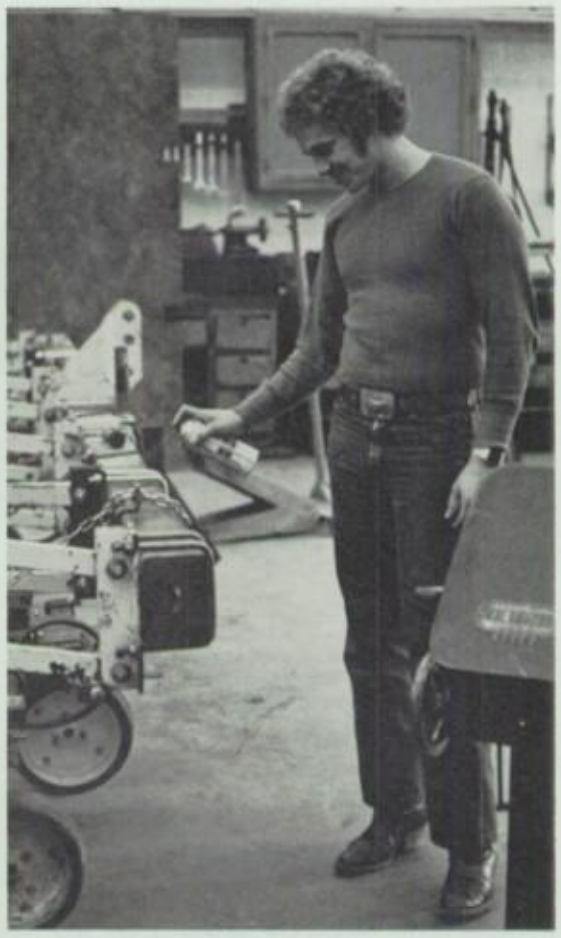
Even on the Spirit Squad's Nerd Day, seniors Alesia Yakos, Lori Thompson and Judy Elston keep practicing their First Aid.

Sophomores Penny Klinger, Susan Allen and Laurie Krouskop are busy planning their menu for a Home Ec. assignment.

Juniors, Bobbie Smith and Lonny Duncan are showing us their bandaging skills. Along with First Aid, Health is required for all sophomores. They learn some of the same skills, plus tips on health care.

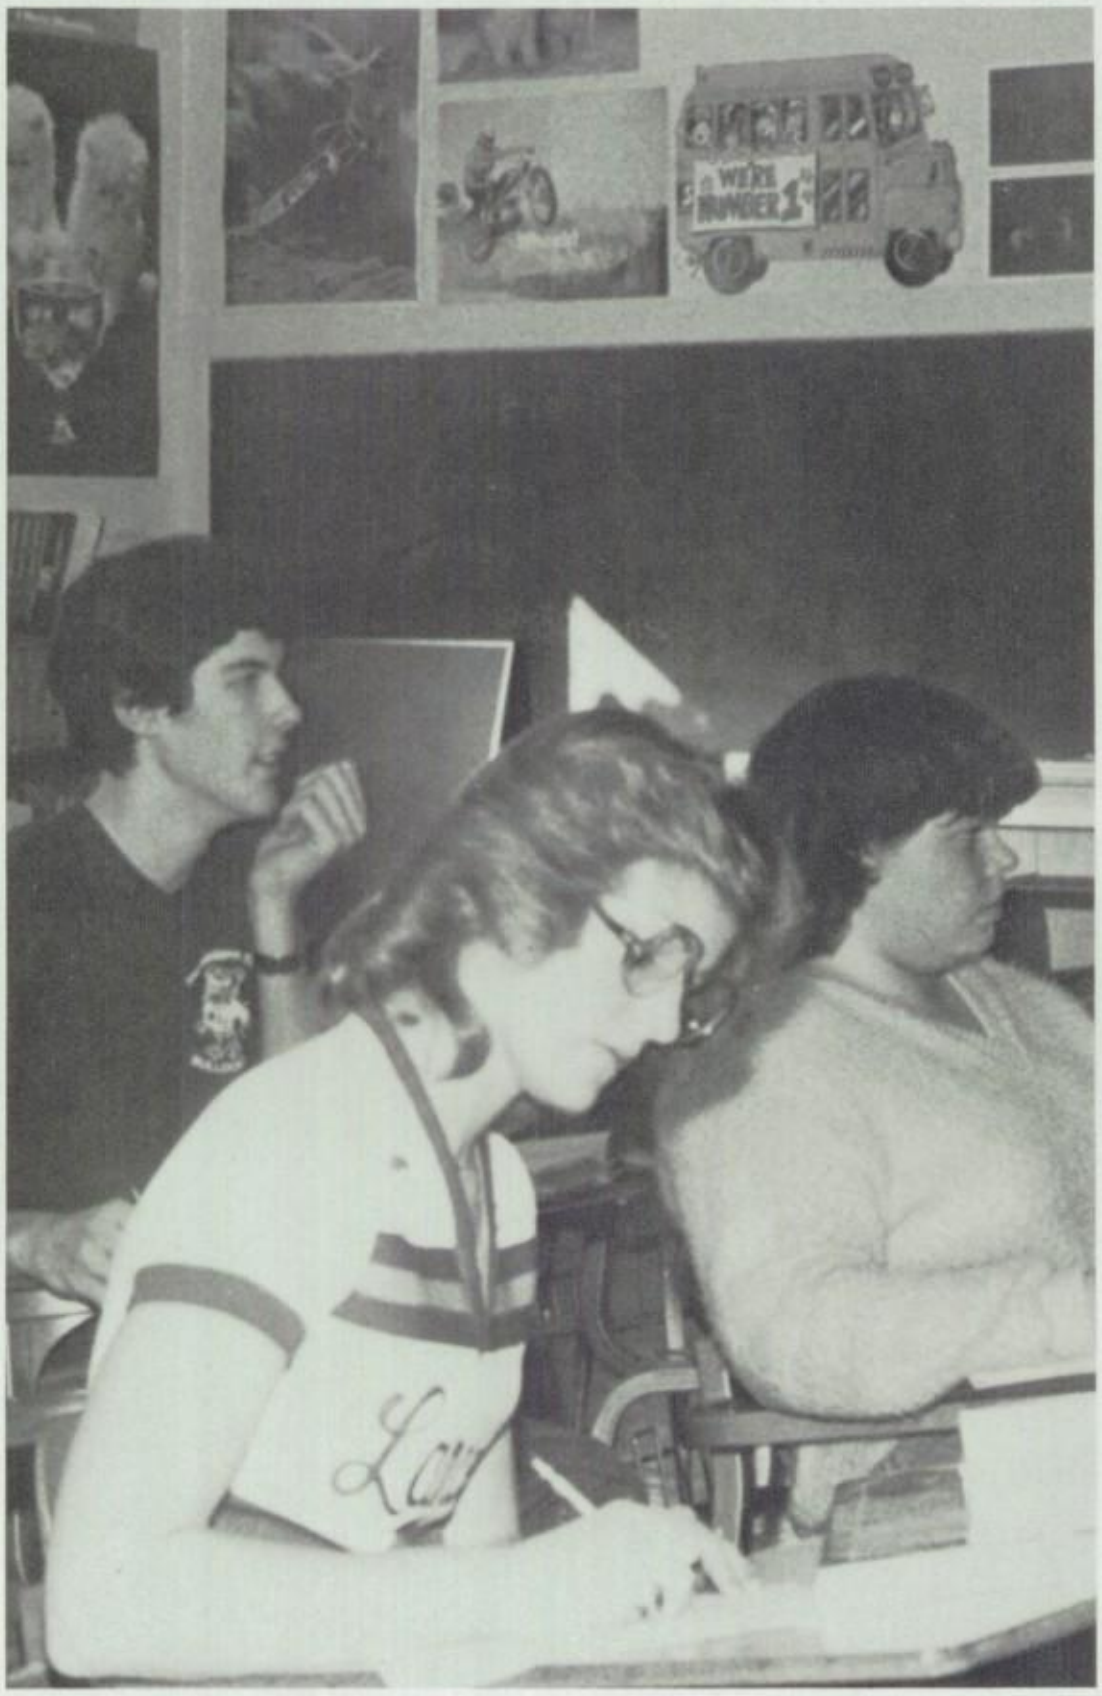


Tim Friemoth, senior, is using a vise to secure a frame while the glue is drying in Industrial Arts.

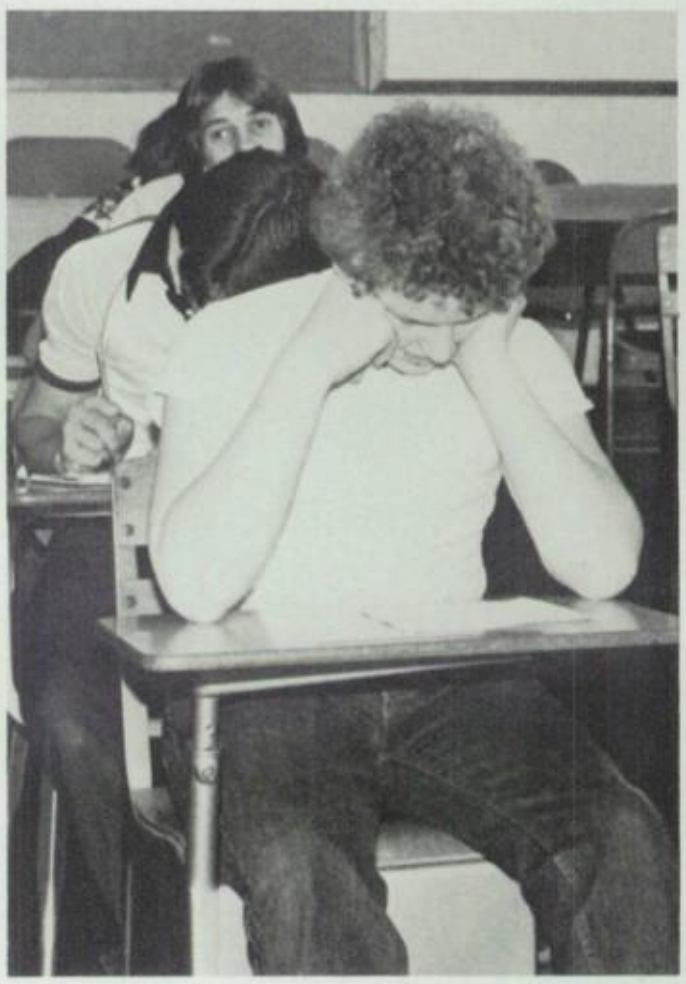


Brennan Profit, senior, is spray painting a cultivator in Vo. Ag. Class.

The seventh period Gym class is shown playing a game of popcorn. This aids the Jr. High in coordination skills.



Seniors Lisa Yakos, Danny Etzler and Lynda Lape are three of the four Advanced Math students.



Seniors Lori Dixon, Barb Markley, Cathy Jones, Missy McMillen, Marcia Kyle and Keith Kirkendall are trying to look busy in their Senior College Track English Class.

Freshman Eric Felger, Ronnie Duncan, and Todd Brinkman show just how much fun English can be.

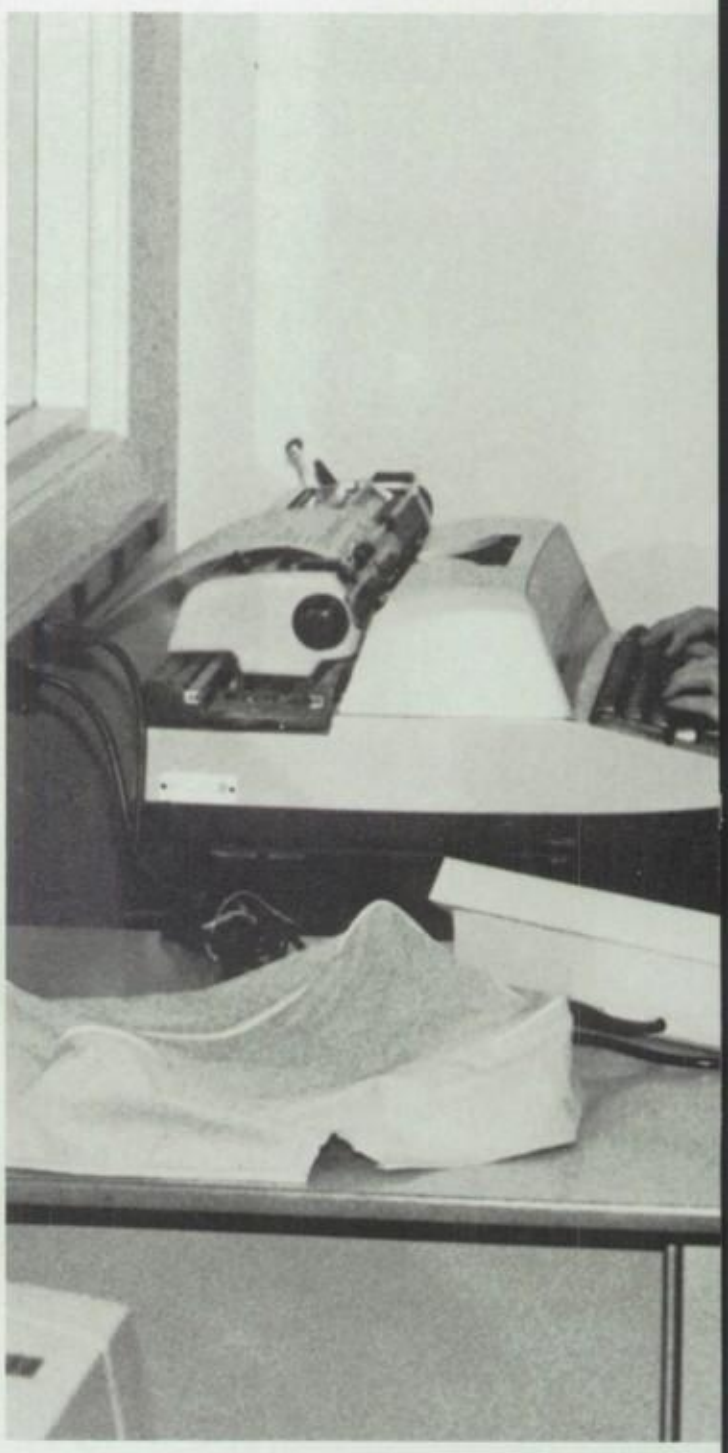
Seniors Joanne Arnold, Lisa Yakos and Elaine Speer work on their required term paper for Mrs. Chrystowski.

Seniors Danny Etzler, (Ha!, I told you, you were wrong!), and Lynda Lape work individually during English.

Freshman Brenda Baker works out a Math problem on the board in Mr. Moser's General Math Class. Each student chooses a day to teach the class.

READIN' RITIN' & RITHMETIC

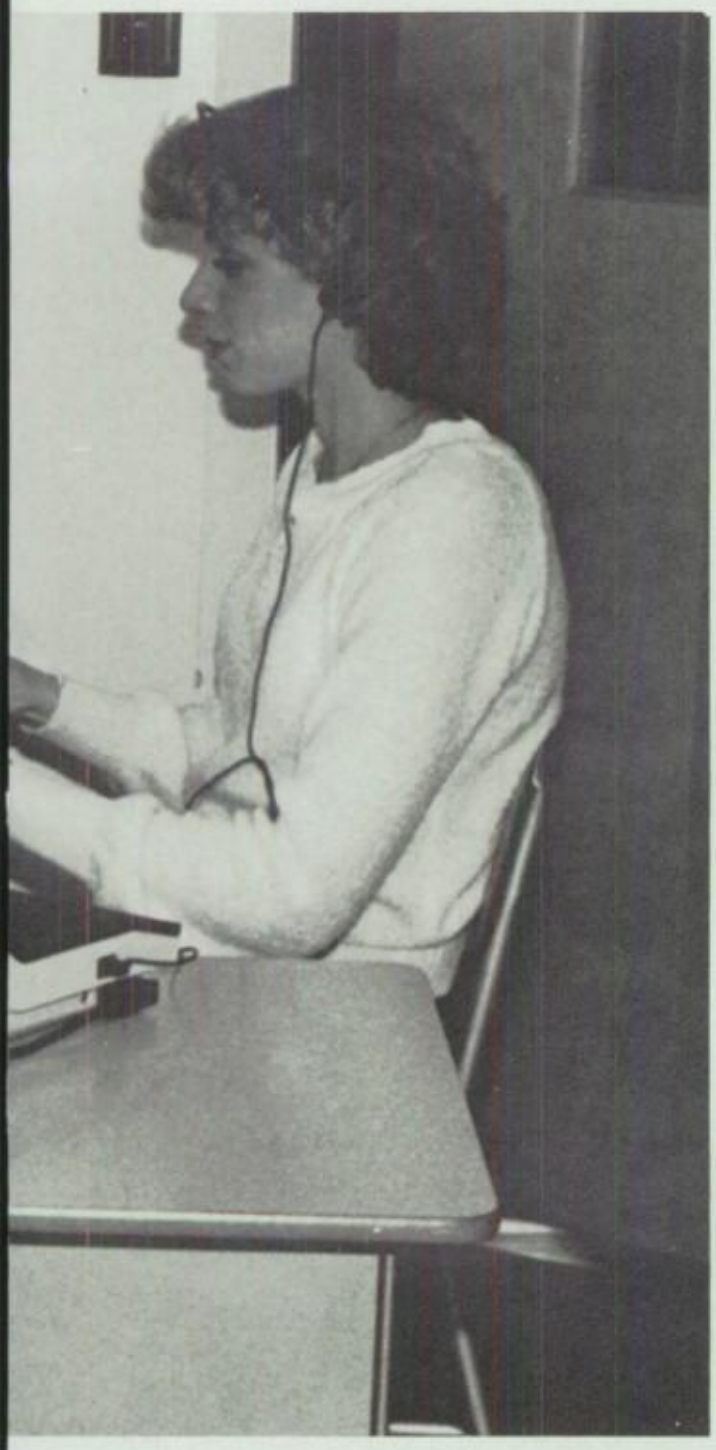
Academics Provide ESSENTIAL Senior Credits



Senior Lori Putt is taking dictations from the dictaphone. Dictations and other office procedures are discussed in office practice.

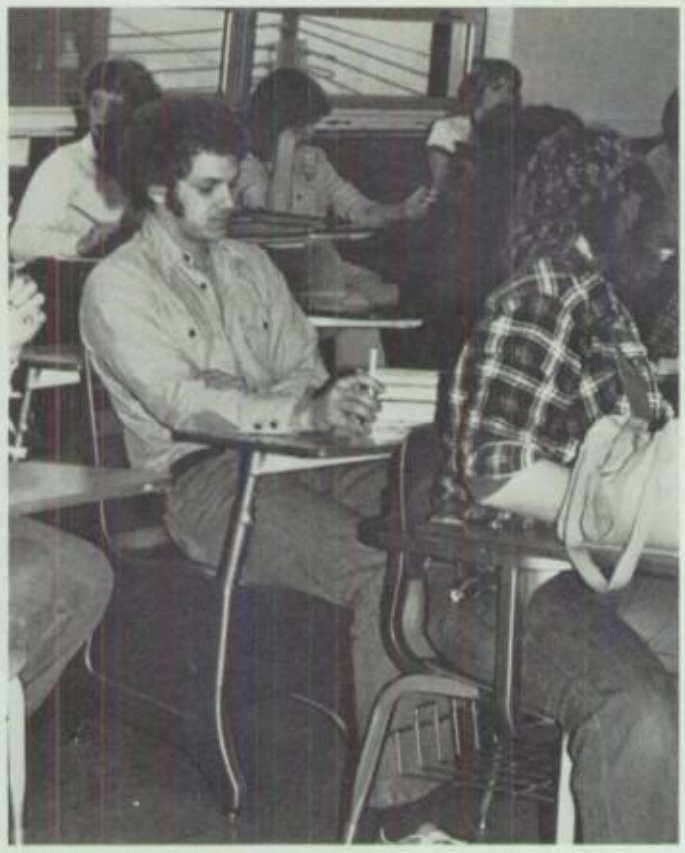
Senior Joanne Arnold seeks advice on locating a science fair book from Mrs. Kiehl. She is a member of anatomy, which requires a science fair project. Joanne's project dealt with various types of diets.

"And the capital of Colombia is?" Questions like this were frequent on Government tests that dealt with the different countries of the world. Seniors Julie Pollock, Cathy Jones, Judy Elston, and Lori Dixon seem to be having a little difficulty remembering that the answer is Bogota.



Seniors Lisa Gilgenbach and Julie Pollock are practicing typing and filing. They type set information on index cards and then file them. These and many other such procedures are taught in office practice.

Lori Dixon and Bob Lehman, both typing I students, are preparing for a production test.



Senior Brennan Profit seems to be the only one capable of understanding government 1st period every morning.

SPECIAL SERVICES INCREASE LEARNING SKILLS

The Special Services teachers and helpers, aid students with a little extra help and guidance. The office helpers do a number of different jobs such as typing, answering the telephone and running errands for the faculty and administration. The librarian aids are selected by Mrs. Kiehl and assist students in the library. Each of the Special Services teachers do a number of different jobs during school and with after school activities. The students appreciate their time and effort.

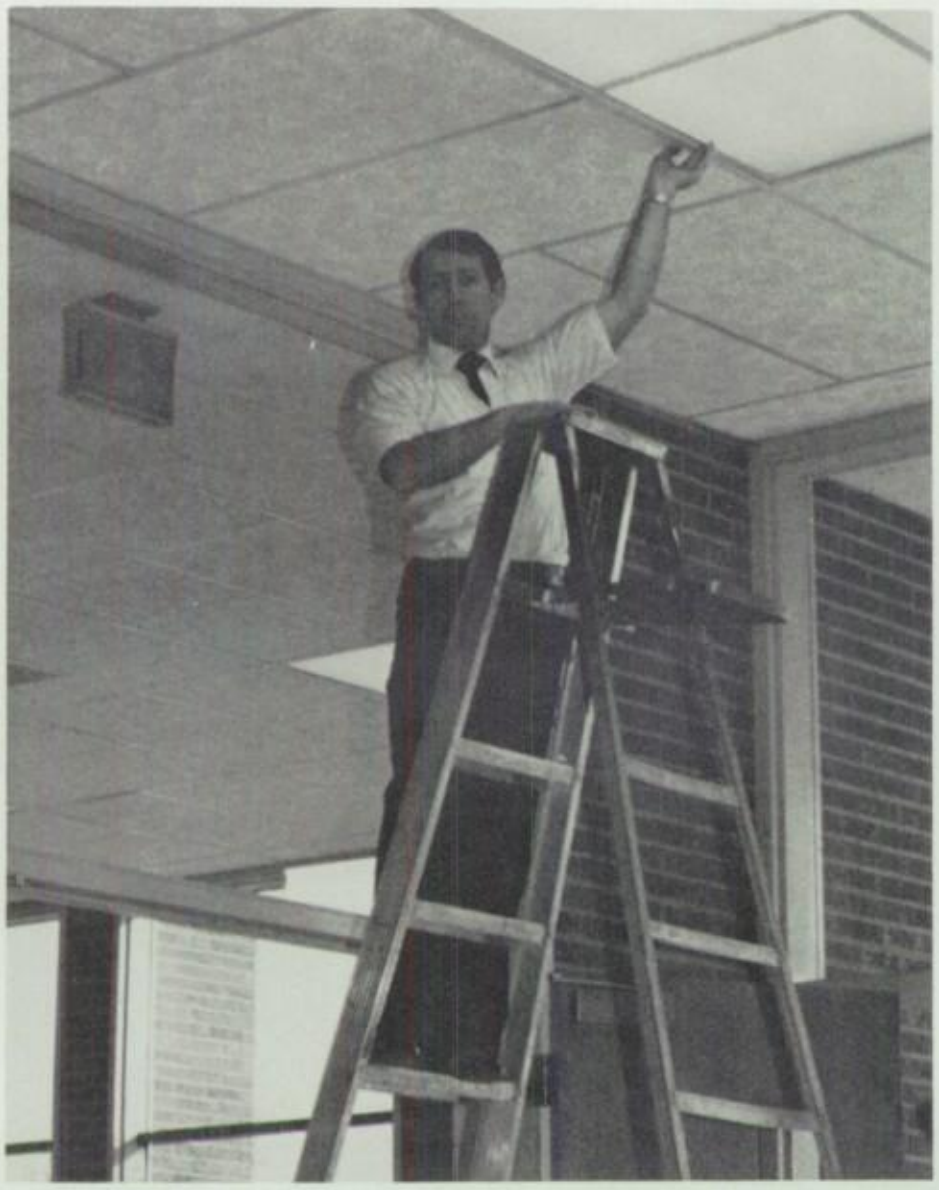
Superintendent Kirkendall is in his 11th year at Lincolnview. We asked him what changes he has seen throughout his years. He has noticed "the creation of Vantage Vocational School and a slow drop in total enrollment at Lincolnview." Also the bus routes have been reduced from 16 to 13 over the past 11 years.

Mrs. Lautzenheiser has been a secretary for 30 years. She started at Hoaglin-Jackson (Lincolnview North) in the fall of 1949, was transferred to the East Building when the South Building closed and came to the High School as clerk-custodian of the activity accounts three years ago.

Janet Myers, secretary to the superintendent, when asked if school money is spent wisely, replied, "In my opinion — most of our money is spent wisely. I do think we could get by with alot less supplies; things that seem to be inexpensive but for all three schools they do add up. "Also when walls are marked up or lockers and desks are damaged, this causes the school to spend alot of money that should not be necessary."



Mr. Snyder graduated from Bowling Green State University with a B.S. in Education and then received a masters in Education from Ball State University. Mr. Snyder has been happily married for 15 years. His wife's name is Jeanne. They have three children. Mr. Snyder feels "the overall attitude and enthusiasm has improved at Lincolnview, but he would like to see more students get involved in school activities."

Alice Neer, secretary to the principal, has been a secretary for 18 years. When asked what changes she has seen in Lincolnview, she said, "I see a school spirit of both faculty and students. The basketball season has been quite successful contributing to the Lincolnview Spirit!!!"

Mr. Owens, when asked how he likes working here said, "I feel comfortable working here at Lincolnview, having graduated from this school system and I am enjoying the work mainly because everyone has been very considerate and helpful." We also asked him about the new computer system. He said, "The new computer system was made necessary by the new state mandated accounting system for schools. The system is working relatively well and the transition to the system went quite smoothly. The main advantage for the system is that more detailed and current fiscal information is available for financial decision making. The disadvantage of the system is that when the computer is down for repair and maintenance we cannot post or retrieve any financial information and payroll cannot be processed."

Who Boosts School Pride?

The *Athletic Booster Club* has purchased alot of things during the year; for instance, baseball, track (girls & boys), and wrestling uniforms, and 4 glass basketball backboards. The total amount spent was $7,625.00

They also arranged a Gems game that consisted of 5 professional girls playing against a team of teachers and administration for the Lancers.

The girls did some tricks during halftime and after the dust had cleared, the Gems came up with the win.

The *school board* has many goals for the 81-82 school year. They want to improve student skills in mathematics concepts and computation in order to raise the students score on tests. They also want to give them more insight on the importance of computers. They are also going to try to revise inventory of all instructional equipment.

School Board Members for 1981-82 are: Re-elected Larry Bowsher — pres., Chuck Hammons — v. pres., Joe Hoghe, and new members Dave Jones and Bev Collins.

Athletic Boosters meet in the cafeteria on the 2nd Monday of every month at 7:30 p.m. making it possible for any interested person to attend.

A chili supper was sponsored by the Athletic Boosters on January 23 before the Ottoville basketball game as a money making project.

Some of the things done by the *Band booster* members were to sell concessions at the boys basketball games and organize an ice cream social in 3rd ward park during the summer. They also cater many banquets for the community. They bought 4 hoop batons for the majorettes and new instruments.

Cooks! They arrive at school at 7:30 a.m. every morning to prepare our lunch. They serve the food, clean the tables, and wash the dishes. What would we do without them?

Mrs. Adam starts popping popcorn during the first quarter for the halftime rush on the Band Boosters Concession stand.

The concession stand at Basketball games is the main source of income for the *Band Boosters.* Shown working are: Mr. Baker and Mr. Sinning. Officers are: Pres. Marge DuCheney, treas. Delores Allen and sec. Gayle Sinning.

Athletic Boosters: Roger Neate — pres., Judy Evans — reporter, and Gloria Bowersock — sec. Not pictured Bob Patterson — v. pres., and Joyce Profit — treas.

Amazing Work With Safety Services

Having started teaching at Lincolnview in 1967, Mrs. Williman has just completed her fifteenth year.

Getting interested in First Aid in 1973, started Mrs. Williman in a long line of activities dealing with first aid. She has volunteered her services at the mock airplane disaster in Indianapolis, the home show, the first aid centers at the county fair, and the first aid booths at the Indiana State Fair. She offers her time to teach different courses such as: CPR, small craft, swimming, first aid, life saving, water safety instructor course, testing for lifeguards for Indiana state parks. She's also on the staff of national aquatic first aid small craft school each summer. When asked what the most exciting thing that has happened to her was, she said, "Getting a National Award for putting in over 4,000 hours of volunteer teaching. Also being inducted in the Commadore Longfellow Society, a honor for teachers."

In Mrs. Williman's spare time you can find her competing on the Masters Swim team, or swimming in freezing water, in the middle of the winter, with the Polar Bears or at home.

"WHY SHOULD I FEEL DIFFERENT?"

When asked if she felt different her reply was, "Why should I, they're just people!" Williamae arrived at the Marsh in August '81. She said she likes it at the Marsh better than the St. Anthony Villa, mainly, because there is more freedom here.

Williamae said that everyone treats her nice, and she has alot of friends. When asked who her best friends were she said "Amy Tribolet, Nancy Nolan, and Kris Trisel, because most of her school day is spent with these girls. Williamae has attended one all black school, this is her second school that has been all white, others were mostly black.

The worst thing about Lincolnview from her view is that the hours are to long. Williamae said she gets along better with the kids at school because she doesn't have to live with them. When asked if she liked her name she said "It's alright, but its nothing to jump up and down about."

Williamae is a member of the junior varsity basketball team, and the track team. Williamae said her sister will start at Lincolnview when Williamae is a junior. Williamae has a sister in Maumee, Ohio which she visits on the holidays.

SOPHOMORE SINGS STATE

Kelly is shown rehearsing with the choir as they make ready for their T.V. 33 appearance.

Kelly Hammons, a member of the Lincolnview High School Choir, was born on March 4, 1966. She is a resident of Van Wert, Ohio. Kelly is the daughter of Mr. & Mrs. Neil Hammons. Kelly has two sisters whose interests are not in the music field at this time.

Kelly started singing in church when she was 13. She participated in Lincolnview Choirs since 7th grade and was involved in Youth Choir at Zion Christian Union Church.

Kelly enjoys singing very much. She likes contemporary gospel and classical, but not hard Rock. She relaxes to contemporary gospel.

Singing does not run in her family, but her parents do encourage her to sing. By this she sings in church and practices 2 days out of the week.

Kelly prefers to sing solo because it is easier to express herself. Kelly's favorite song to sing is "Mansion Builder" and her favorite song to listen to is "Endless Love". Kelly would like to make a career out of her singing by performances. Kelly said "If it wasn't for God, I wouldn't have the voice I do today.

A tape of Kelly's voice was entered in the Cincinnati All State Choir. Kelly won the distinguised award. She did a really good job! Congratulations, Kelly!! Story by Kelli Miller.

Kelly, a member of the Lincolnview Choir and recipient of the Cincinnati All State Choir Award.

Art Student Displays Talent in New York

Sheila holds the piece of art which was displayed in New York. It won top honors because of its explicit detail.

Sheila Foster has shown much improvement in her artistic ability. She placed in 2 contests this year. She had a piece of art entered in the Ohio Governors Youth Art Exhibition. Her contribution was a pencil sketch of a girl. It was exhibited in Columbus in April, 1982. It was one of 9,000 entries.

She also placed 2 pieces in the Northwestern Regional Scholastic Art Show. There were 1,439 entries and her watercolor of a stone quarry was a Blue Ribbon finalist, the top award. She was one of 39 chosen to have their work sent on to the national finals in New York.

Sheila's portrait entitled "Innocence", which was displayed at the Governors Show.

Sheila likes to paint portraits of little kids the most and likes to use oils to paint with. In the future, Sheila wishes to go to an Art Institute and go into a field of commercial art.

DOWN ON THE FARM

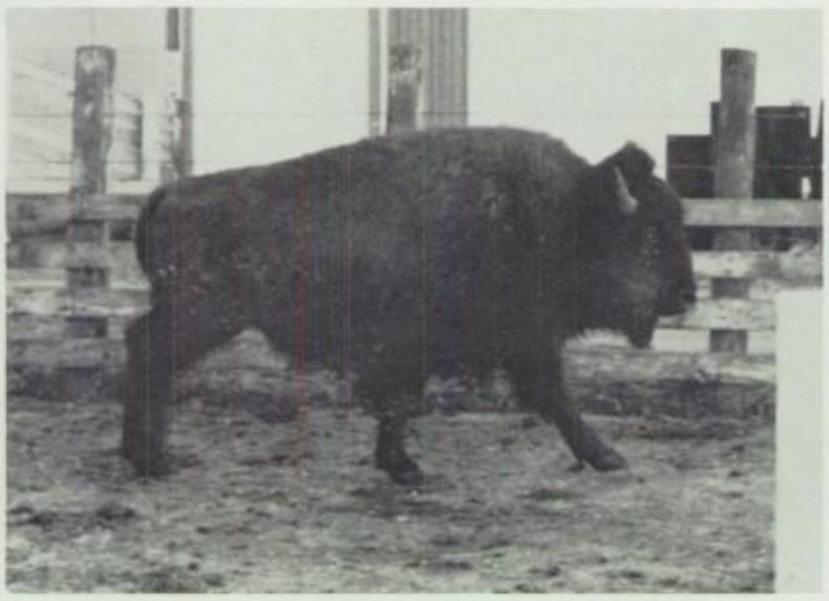
Nick Williams has his life pretty well planned out for him. Within the last year he has decided to follow in his fathers footsteps and become a farmer.

After high school Nick plans to live with his parents, Hayden and Loretta Williams, for 2-3 years. Nick has a head start on farming by owning such things as a 2-bottom plow, and ½ interest in 80 cattle.

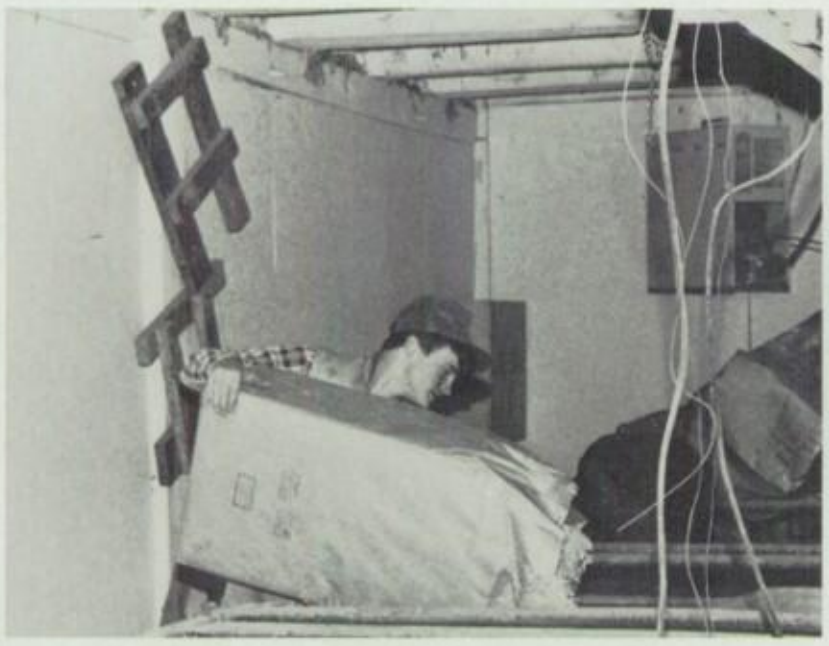
Nick has also been kept busy in the county fair. He was on the Jr. Fair Board's livestock committee.

Nick received 1st place in the state and 2nd in the county in the plowing contest at the Farm Focus in the year of 1979.

Nick would like to be like his grandfather, Luther Williams, and when asked who he learned the most from, he replied, "Mr. Gerdeman."



A new attraction to the William's farm is the buffalo!



Nick places bedding in the stalls so that the animals sleep comfortably and it is also easier to clean out.

Nick is shown doing one of his many chores, cleaning out the stalls.

The Junior class had an early start on prom this year. They got together and put the finalizing touches on the prom.

They had the band, Sirrus, play which was the same one that played for Homecoming. The Prom was held on Friday night instead of the traditional Saturday night, which had its' disadvantages and advantages.

The Junior class also sponsored a cake raffle on February 16th, when the basketball team hosted the Crestview Knights.

Vantage takes 58% of Juniors

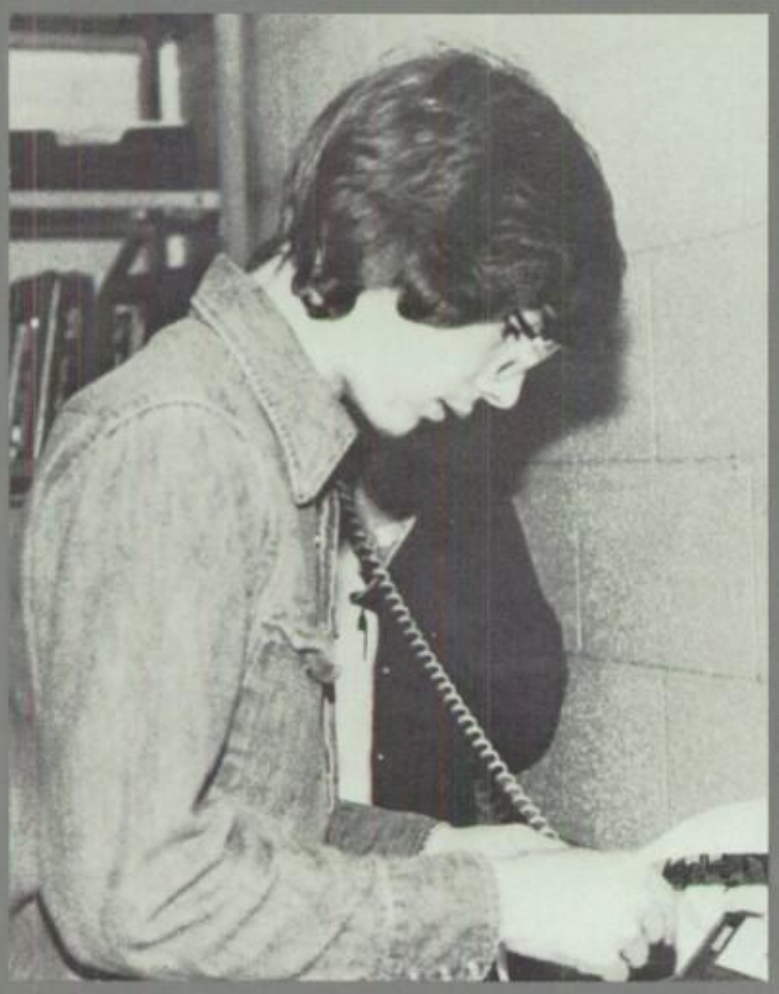
There are 33 juniors, 17 female — 16 male, attending Vantage out of a class of 57. Those students who attend the vocational school start at 8:40 am, break for a morning snack, have lunch and are out by 2:40 pm. Only seniors are permitted to be in the programs where they work ½ day. Out of a total 41 seniors learning at the trade school 21 are female. This is 41 out of a class of 78 seniors — 53%.

As everywhere the state is cutting back on educational monies sent to the schools; also school year 82-83 the state will send money to schools per pupil. If our Vantage enrollment stays the same the Lincolnview system stands to lose approximately $95,000 to the joint vocational school (no small sum).

While adjusting the planer Ed Gill makes sure the boards are run through smoothly.

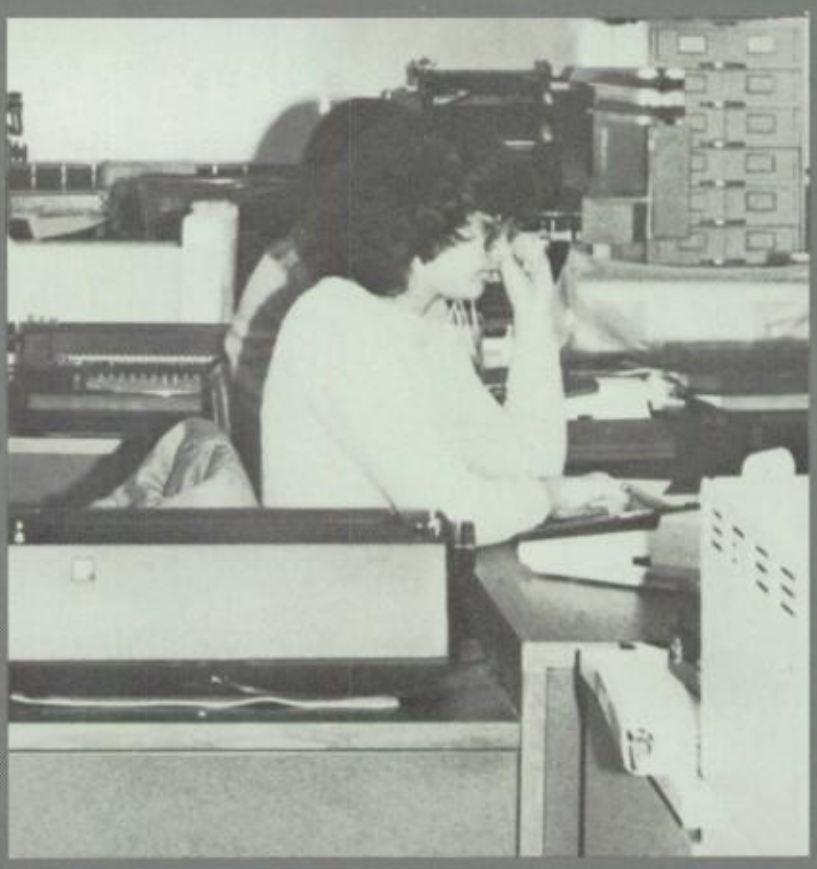
While figuring up the cost of his labor in Auto Mechanics Matt Baker hopes to make a profit.

Being observed by Pat Brincefield (senior) Mike Flickenger is trying to find out what's wrong with an engine.



Mark Fisher is totally shocked about all you can learn in Related Class.

Rechecking her mathematics on the electronic calculator Marla Harp is in Office Service Class.



Trying to understand how a engine runs is one of the many jobs that Kevin Brinkman has.

Learning a trade has become important to our seniors

Sheryl Kimmey is practicing what it is really like to do a roll up.

Art Tumblin, in the middle of Related Class which lasts 3 hours straight.

Fitting right in with the kids Mel Ropp enjoys being in Child Development.

After selling grapefruits and oranges for a Vantage event, Tracy Baer and Don Fisher enjoy counting up the money.

Bob Evans seems to be enjoying his Government Class by the look on his face.

Scheryl Adams and Dennis Putman seem to be a little bored with Related Class.

Jason Hoffman seems to know what he is doing in Machine Trades.

Penny Kohnen is applying a facial mask to a volunteer customer, and liking the job.

EDDIE ENTERTAINS

March 26, 1964, a day that will go down in history. Bluffton and Toledo, Ohio were shaken by the births of Eddie Rice and Tim Thompson. The events that followed will be remembered as a turning point in the human civilization.

Eddie now resides in Boomer Heights, a northern suburb of Elgin, Ohio. He lives in a house trailer with his mother.

Eddie spends a lot of time at the Elgin Amusement Park seeking refuge from his brother Jeff, who he refuses to comment on.

His favorite colors are black and silver. His hobbies include many different sports. Eddie's favorite class is Phys. Ed., and he doesn't care much for Industrial Arts.

Eddie starts on the baseball team and is a future hope for the major league draft pick. He also is an ace at basketball. He has led the FFA basketball team to many victories.

He drives a remodeled blue rambler with a sun roof and bucket seats. While cruising his beat down main street, you can hear the tunes of the J. Geils Band blaring from his 150 Watt stereo.

Eddie is an upstanding member of the "Save the Pumpkin Foundation," an organization that fosters orphan pumpkins.

He might attend Lima Technical School after graduation unless he can land a good job.

His final senior comment to all of us,
"Thank you to all my loyal fans who supported me in my traumatic high school years."

Tim Bowls Against Earl Anthony

You slowly approach the lane, swing back your arm, and release the ball. After a seemingly endless time span, the ball reaches the target and the pins come tumbling down. STRIKE . . .

Tim started this endless routine at the age of 5. He was so small that he had to sit the ball down and push it down the lane. His first game he scored a 1, but he soon improved. Tim's dad provided his first encouragement to bowl. Tim would go and watch his dad bowl in leagues. Tim said, "When I first tried it I liked it and just kept going back for more."

During the ten years he has been bowling, Tim has won the following awards: High Game, High Series, High Average, Art Dyll Achievement Award, 600 Club, 250 Game Award, and High Series for Regional Tournament. His highest game is a 289 which he bowled at the age of 16. His highest average is a 201 and his lowest is 30.

Tim bowls in the senior league on Saturdays and he also travels with the Northwest Propietors Senior Travel League which bowls at different locations around the state of Ohio.

Tim likes bowling because it is a sport you can participate in not only all year long, but all of your life. He usually bowls ten games a week unless he is preparing for a tournament. In that case, he ups the practice sessions to twenty.

At the present time Tim doesn't have plans to become a pro bowler, but he definately has the potential to go far in the bowling world. He cites a lot of patience as the key in bowling. "Don't let yourself get mad because you're not bowling well. Skill has to be developed, not acquired."

Tim spends a lot of time at Olympic Lanes because besides bowling, he has also been employed there for seven years. He mainly does odd jobs such as fixing machines, giving out lanes and shoes, changing money, and cleaning up. He likes working at the bowling alley because it gives him a lot of chances to bowl.

COLUMBIAN HITS L'VIEW

My name is Jose Valencia and I'm going to tell a little about myself. I live in Cali, Colombia with my parents, sister, and two brothers. We also have two maids; one to cook and the other to clean the house.

My dad runs 2 supermarkets and a grocery store which is headed by my mom. To escape the city, we go to our farm on a coffee plantation outside the city.

The school I attend is a private boys school. We go from 7:00 a.m. to 2:10 p.m.. We never leave the classroom, it is the teachers who have to run around. How do you like that? We also have a different grading system; from 1 to 10. If you have less than a 6 you flunk and we go for 11 years. During lunch we can go to the grocery around the corner and buy something to eat or even go home.

In my free time I go to a country club together with parents or friends. There we can play tennis, basketball, volleyball, jog, ping-pong, and a lot more.

In sports I play soccer and have been captain for three years. One reason I came here of course, was to learn to talk English because it is necessary if you want to go to a University, college, or even get a good job. The other was to get to know other people, their customs, and their way of living. My plan is to get into a college to study for engineering when I get home but I would like to start my education in the States.

Well, this was a little about myself, see I am not so different from anybody else!!!

OO LA LA Comes to U.S.

RUBIK'S CUBE — yes, Ulla Ronn knows all about them. Before she left for the states, Ulla's younger brother was timed at being the third fastest in Denmark.

Eighteen year old Ulla came from Korsor, Denmark leaving behind her two brothers and a dog. She loves her home but was eager to travel, see something new, and meet exciting new people. After hearing about the YFU program, she decided "Why not?" and off she went. "I have never regretted it. It's wonderful here and I enjoy it alot."

Back in Scandinavia land her interests were swimming, china painting, soccer (the nation's number one sport), and handball. Ulla is in college at home and has two years to complete. Her major area of study is language and she wants to become a stewardess or intrepretor. With Ulla's free time in the U.S. she played Varsity Volleyball, ran track, played softball, and being an international visitor gave her free passage to the YMCA where she ran and attended Jassercise classes.

We polled students from LHS, Vantage plus Adults to find out feelings about students going to Vocational Schools.

How could the two schools get along better?

LINCOLNVIEW: "A little more cooperation between both groups." "I know of several occasions when Vantage didn't announce something and Lincolnview had sent over the announcements."

VANTAGE: "Let us know more things going on."
"By getting it out of Lincolnviews head that the only reason we come here is because it's easier. It's not."

ADULT: "Lack of communication that maybe could be dissolved."
"Get information from one school to another."
"Scheduling between the schools; probably not feasible because of all the schools tied into Vantage."

Does the high school split students? "

LINCOLNVIEW: "Even though we are from the same school, feelings change. It's like they're at a different school."
"I had to sacrifice all my friends and sports."

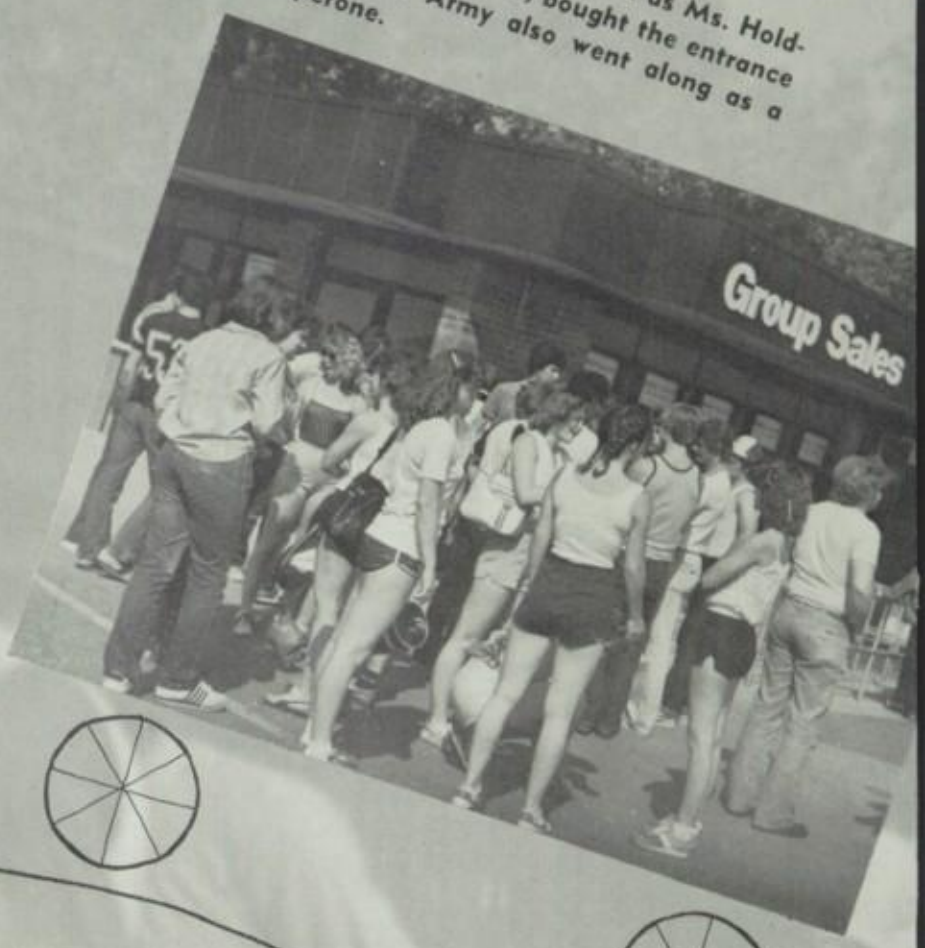
VANTAGE: "Vantage students *can* visit it's home school and still get along."

ADULT: "They lessen contact with students from their home school."
"Things are never the same once the nest is left; most of the real closeness with old friends is gone."

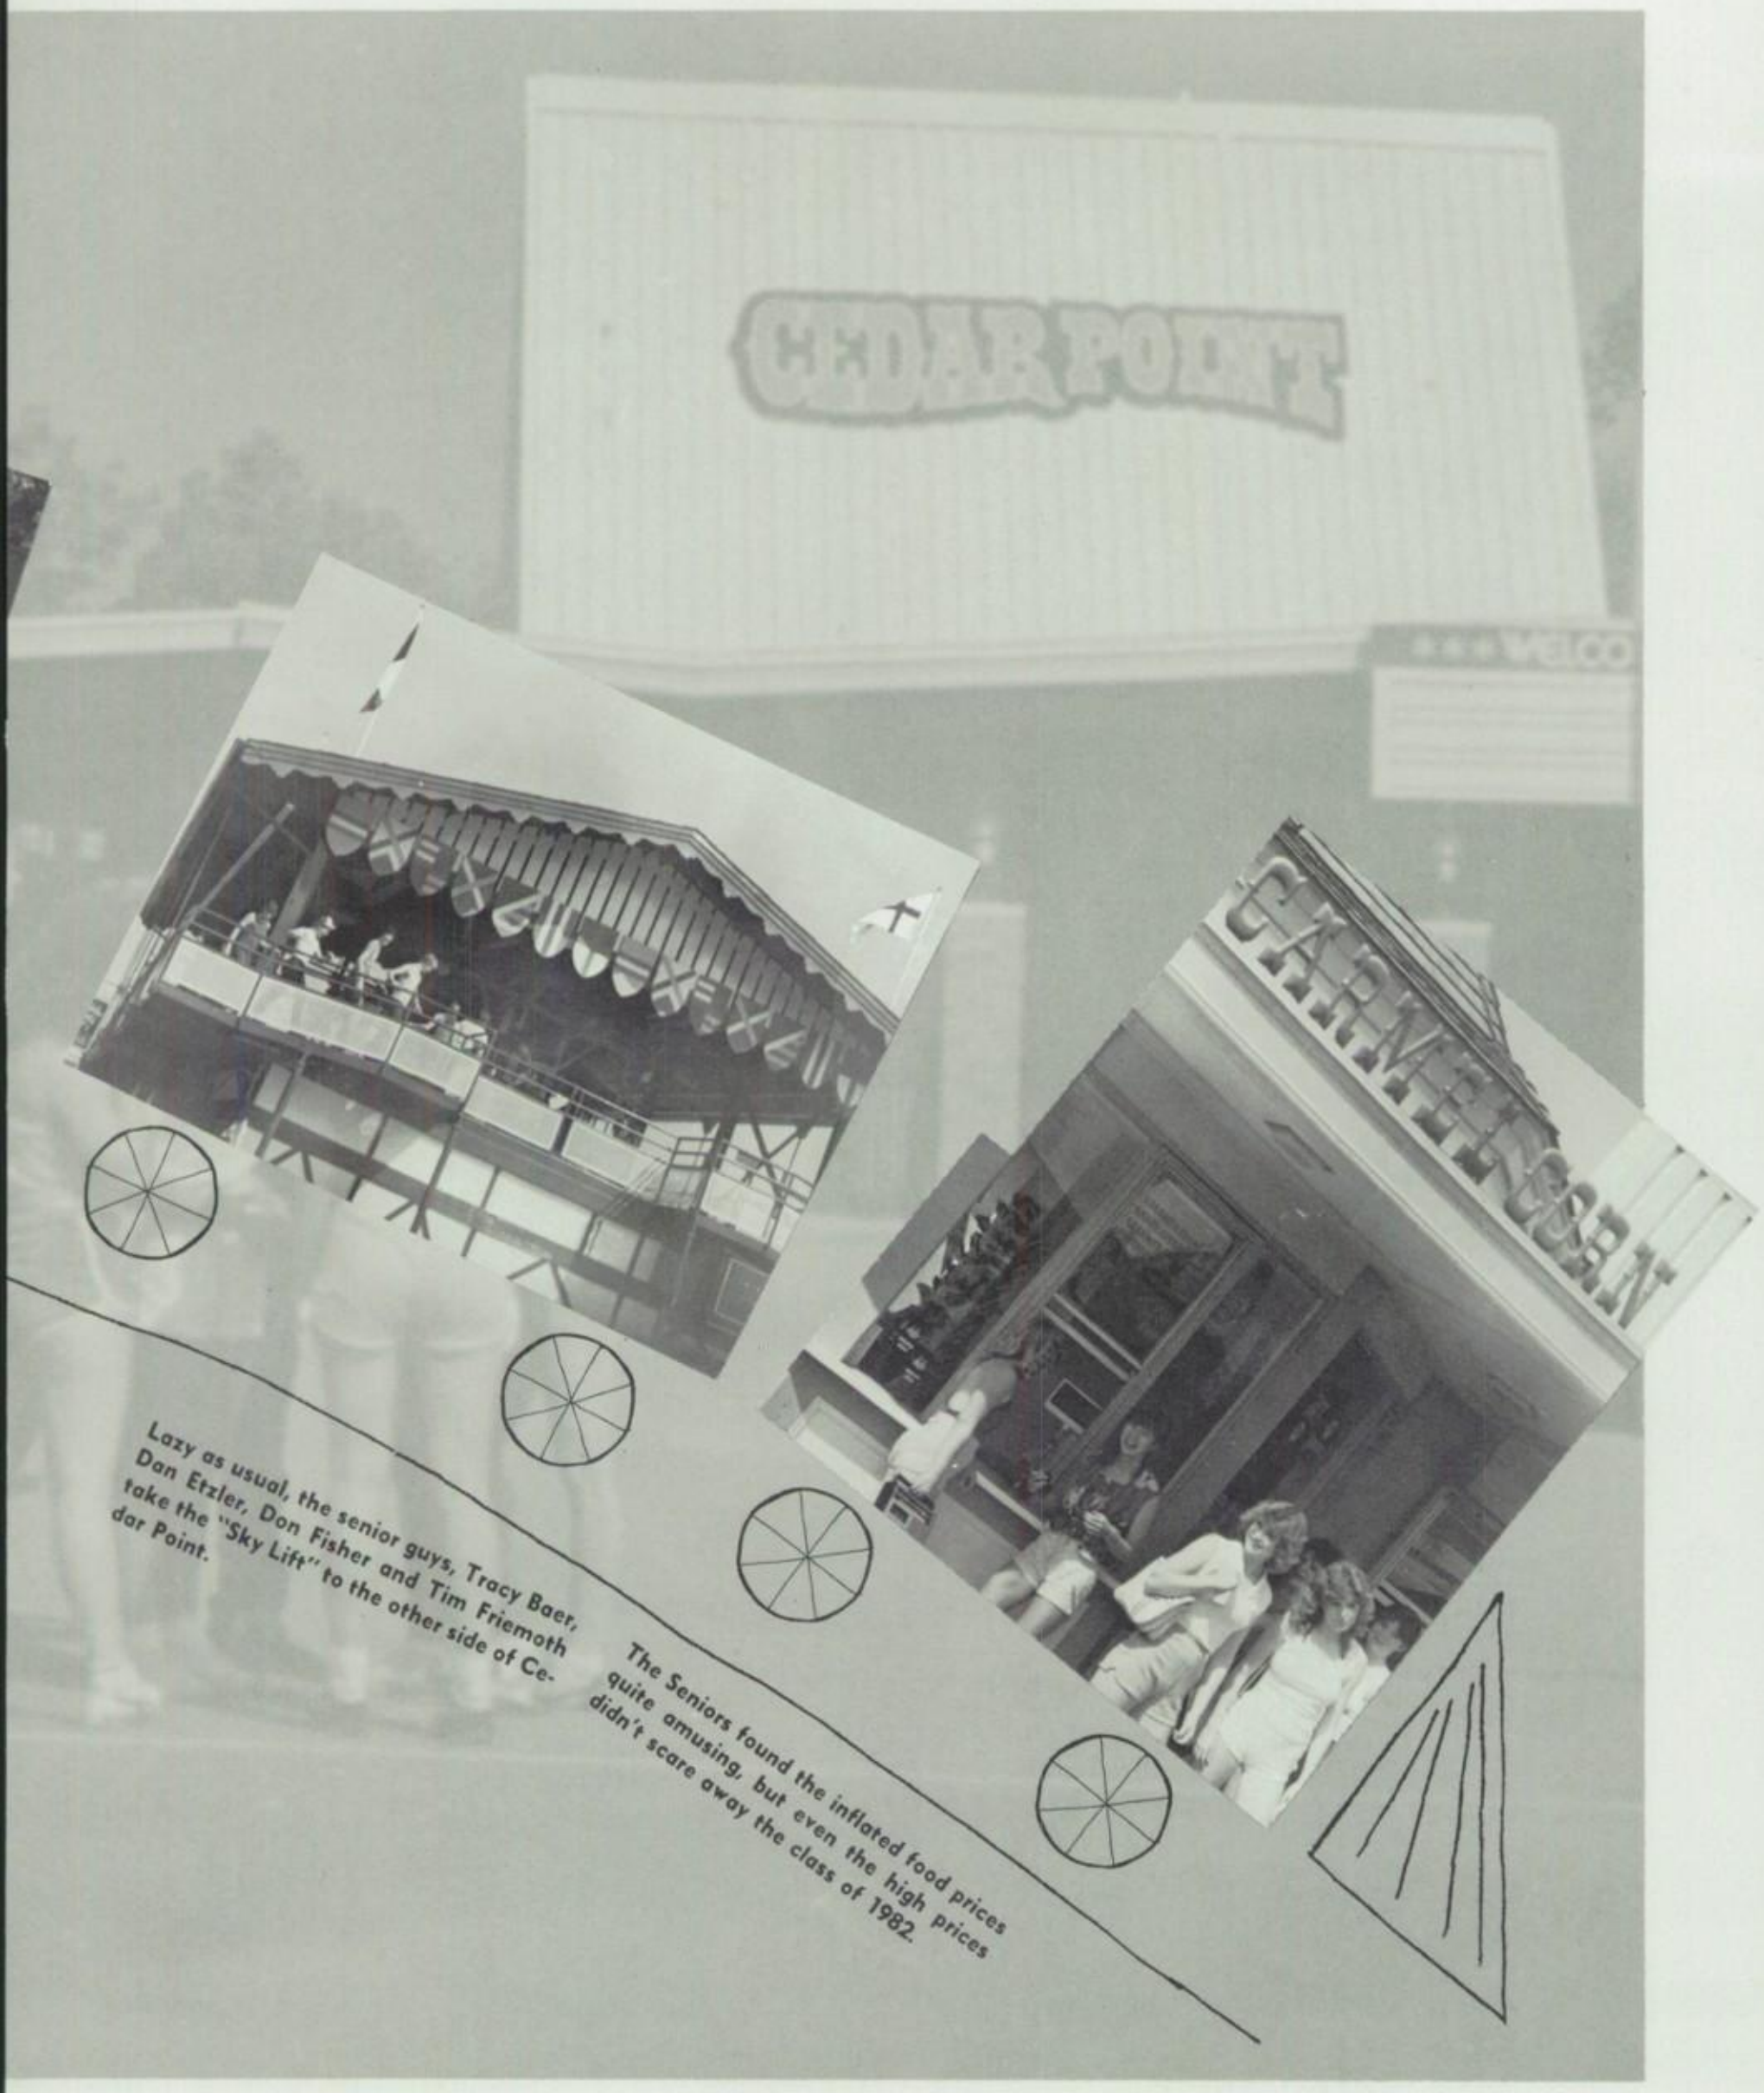
Maybe this quote sums it up best. "When it gets right down to it Vantage is the right thing for some people and not for others. But that is your choice not someone elses. But you have to respect that persons decision."

The Senior class chartered a bus to "haul" the class to Cedar Point. The Seniors pulled out at 7:30AM for a very full day that ended at 11:00 PM.

The Seniors patiently waited as Ms. Holdgreve, Senior-advisor, bought the entrance tickets. Mr. Army also went along as a chaperone.



Amusement Park Provides Thrills and Chills for Seniors!



Lazy as usual, the senior guys, Tracy Baer, Dan Etzler, Don Fisher and Tim Friemoth take the "Sky Lift" to the other side of Cedar Point.

The Seniors found the inflated food prices quite amusing, but even the high prices didn't scare away the class of 1982.

Starr Commonwealth Schools Celebrating 30 Years Service To Children

On June 28, 1981, a day of celebration was marked at the Starr Commonwealth Schools in Van Wert, Ohio. Thirty years ago a dream came true for Floyd Starr, founder of Starr Commonwealth Schools in Albion, Michigan in 1915. In 1951 the Starr purchased a 40 acre estate from Mr. and Mrs. Harry Beckmann. To add to the special meaning of this new campus, Gordon Langley, a former Starr student, was the first director on the campus. The first cottage was constructed that year and was named in the honor of Nellie Judkins. The estate home was named Beckmann Hall in honor of the original owners.

Whittaker Cottage was built in 1955. It was named in honor of field secretary Esther Whittaker. Mason Cottage, built in 1960, was named in honor of Erwin Mason. He was a long-time Starr employee.

In 1963 a school building was built. It was named in honor of Gordon Langley, who served as the first director of the campus for 13 years. He died in 1964 and as a memorial, funds were raised for a gymnasium. After the death of her husband, Eleanor Langley served as director until 1971 when she transferred to Albion.

In 1971, Arlin Ness became the director of the Van Wert campus. He served until 1977 when he became the V.P. of Program at the campus in Michigan. This past fall he was appointed president of Starr after the resignation of Dr. Larry Brendtro. James Beard, present director, assumed his position in 1977.

In 1974, Edward S. Starr donated the funds to build Van Wert's fourth campus, which was named in his honor.

Additions to the Gordon Langley School Building have included a clinic counseling area built in 1975 and an activity center, which

Art Linkletter came to Van Wert as the guest speaker for the Beckmann Chapel dedication ceremonies.

Pres. of Starr Commonwealth Schools Arlin Ness, Art Linkletter, and Director of the Van Wert Campus, James Beard.

One of the students poses beside the sign made by the boys in shop class.

Art work by Ms. Holdgreve

The 1982 LANCER staff faced and overcame many challenges this year. We raised the money to produce the book, met our deadlines, and even developed a major portion of our own film. But more important than the accomplishments that are shown on paper, we learned to appreciate each staff member for his or her own abilities. We overcame our obstacles because we each used our talents for one united purpose; to produce a good publication.

I would like to thank everyone for their patience, cooperation, and hard work. Marcia Kyle, editor
